

Tutoring and Counseling Aleza Grazi Tuohy

Masters Degree: Special Education, Teaching the Gifted
Colorado Teaching License

Tutoring:

Reading, Writing, Math, Peer relationships, Memory and more. Through diagnosis of learning style, tests, and other needs, I make learning fun while helping students learn. After years of teaching K through college, I feel confident that I can help learners use their strengths to navigate weaknesses.

Counseling:

My practice is not just tutoring, but includes counseling. Finding difficulty in learning may create emotional reactions that sometimes affect students themselves, family, friends and teachers. I work with students to help them understand who they are and how they learn so that they can become independent, confident and capable lifelong learners.
