MEMORANDUM

DATE: September 11, 2013
TO: Board of Education
FROM: Dr. Don Haddad, Superintendent of Schools
SUBJECT: Summary of Summer 2013 Construction Activities

PURPOSE

To provide the Board of Education with a summary of the summer of 2013 construction activities over \$100,000 or over Board-approved amounts.

BACKGROUND

Timely approval of a change order during the course of a building program is essential so that desired or needed changes do not delay the construction schedule. Per Board of Education policy FEH, in the event that such change seriously affects the construction schedule, individual or accumulative changes that exceed the Board-approved project budgets shall be presented to the Board at the next regularly scheduled Board meeting.

The following summary identifies design/construction activities over the summer 2013 which incurred District commitments greater than \$100,000 or increased purchase order amounts over the Board-approved amounts.

Burlington Elementary Asbestos Abatement Project:

The contract with Colorado Hazard Control for the Burlington Asbestos Abatement Project was increased over the Board-approved amount of \$188,034 to \$195,980. The scope increase was needed to address additional asbestos remediation.

CDC Security Access Project:

The Construction Manager/General Contractor (CMGC) contract with FCI Constructors, Inc., for the Career Development Center Security Access Project was increased over the Board-approved amount of \$185,500 to \$256,323. The scope increase was needed to address floor finishes and electrical changes to the project.

Lyons Retaining Wall Replacement Project:

A contract award for the Lyons Retaining Wall Replacement Project with Urban Farmer, Inc., was approved at the February 13, 2013 Board of Education meeting. Urban Farmer demolished the project as planned. However, on July 7 Urban Farmer notified St. Vrain Valley School District they would not be able to complete the project. On July 10, 2013, AP Mountain States, LLC (d/b/a Adolfson & Peterson Construction), was solicited to complete the project. They immediately proceeded and completed the project as planned for a cost of \$204,432 including contingency.

Timberline PK-8 Project (Heritage/Loma Linda):

The Construction Manager/General Contractor (CMGC) contract with Saunders Construction, Inc., was increased over the Board-approved amount of \$12,650,000 to \$13,350,000. The scope increase was needed to accommodate unforeseen building conditions, asbestos remediation, poor soils at the roadways, and additional electrical and mechanical work.

The contract with Colorado Hazard Control for the Timberline PK-8 Project (Heritage/Loma Linda) was increased over the Board-approved amount of \$204,247 to \$253,271 due to additional asbestos remediation.

MEMORANDUM

DATE: September 11, 2013
TO: Board of Education
FROM: Dr. Don Haddad, Superintendent of Schools
SUBJECT: Report on School Safety and Security

PURPOSE

To inform the Board of Education of the School Safety Committees' progress, and to update the Board of Education on related District-level safety and security topics.

BACKGROUND

The Board of Education adopted policy ADD "Violence Free Schools" in 1999 to systematically phase in "a process to further maximize security and instill an even greater sense of well-being in all schools and District facilities in order for students, staff and support personnel to focus more directly on the District's primary mission - student learning success."

Each School Safety Committee is directed by Board regulation ADD-R "to plan, implement and orchestrate deliberate, focused activity to increase the probability that the school or facility remains as safe as possible, within a reasonable context, given the nature of the school business and limited resources." The four areas of activity specified are:

- physical facility assessments
- climate and culture promotes positive interpersonal relationships
- accessing information to avert violence and destructive behavior
- emergency readiness
