## MEMORANDUM

DATE: September 11, 2024

TO: Board of Education

FROM: Dr. Don Haddad, Superintendent of Schools

SUBJECT: Approval of First Reading of Revision to Board Policy ADF – School Wellness  
Strategic Priority – High Functioning School Board/Student and Staff Well-Being

PURPOSE

For the Board of Education to approve on first reading the mandated revisions to Board policy ADF - School Wellness.

BACKGROUND

Revisions to this policy are required by CDE and align with federal guidance regarding Student Wellness. The current redlined version will align the board policy with the current internal policies and procedures adopted by or recommended by the District Health Advisory Council. As this is a revision to existing board policy, the revision is before the board for a first reading, pursuant to Board Policy GB.

## School Wellness

The district ~~is committed to providing all students and staff with a school environment that enhances learning and develops lifelong wellness practices. The district believes that supporting student wellness, including evident-based nutrition and physical activity, is a fundamental aspect of the learning environment and that improved health optimizes a student's educational success. shall establish and maintain a district-wide School Wellness Advisory Committee, comprised of a Board of Education member, administrators, parents, community members and a nutrition/health professional, plus students and teachers, where possible. The purpose of this council shall be to evaluate progress toward policy goals, recommend revisions to policy deemed necessary and/or appropriate, and serve as a resource to the district including a description of progress.~~

The district shall support the implementation of this policy in accordance with the following goals, which are further interpreted and explained in district Procedure 741-ADF.

The Board adopts the following goals:

1. ~~Establish and maintain a District Health Advisory Council (DHAC). **Provide a comprehensive learning environment for developing and practicing lifelong wellness behaviors.**~~

~~The DHAC will be composed of district leadership, including administrators, community members, and professionals in the fields of nutrition, physical health, and social/emotional health.~~

~~The DHAC will monitor and evaluate progress towards policy goals, recommend revisions to policy, and serve as a resource to the district. The DHAC shall oversee and support individual school wellness teams as needed.~~

~~The district shall:~~

- ~~● Implement district academic standards for physical and nutrition education and continue to improve the health education delivery structure.~~
- ~~● Require that all health/physical education teachers meet the criteria of highly qualified.~~
- ~~● Promote age-appropriate and culturally sensitive instruction to students that teaches lifelong healthy eating habits and a healthy level of physical activity.~~
- ~~● Ensure nutrition education is available in the school cafeteria with coordination between the district food services and school staff.~~
- ~~● Encourage teachers to integrate nutrition education into core curriculum area as appropriate.~~

Schools shall not withhold food or beverages (including food served through school meals) as punishment.

2. **Follow Federal and State nutrition standards and encourage healthy foods.**

The district ~~shall promote physical activity, wellness, and nutrition education, not only in health and physical education classes but also integrated in core curriculum~~

~~areas and throughout the school day. Educators will provide age-appropriate and culturally sensitive instruction to students that teaches lifelong healthy eating habits and sustained physical activity. Nutrition education will be available in the school cafeteria in coordination between the district food services team and the school staff. will support and promote proper dietary habits contributing to students' health status and academic performance. It is required that all foods and beverages available on school grounds and at school sponsored activities during the defined school day should meet or exceed the district's nutrition standards.~~

All schools participating in the School Breakfast and/or National Lunch Program shall comply with any state and federal rules or regulations regarding competitive food service and the service of Foods of Minimal Nutritional Value, as defined by the USDA.

The district shall maintain a healthy vending program. All snacks sold in the vending machines shall be in compliance with USDA Smart Snacks federal nutrition standards and the Colorado Healthy Beverages Policy.

3. ~~**The district will use state and federal standards to promote healthy nutrition choices and a healthy school environment, contributing to a student's health and academic performance. Provide opportunities for students to engage in physical activity.**~~

A quality physical education program is an essential component for all students to learn about and participate in physical activity, regardless of their medical or physical limitations. Age-appropriate physical activity shall be included in a school's education program. Physical activity should include regular instructional physical education, in accordance with the district's academic standards, as well as co-curricular activities and recess while maintaining compliance with all federal and state nutrition standards.

All food items served or offered (for sale) to students during the school day (from the midnight prior, to 30 minutes after the end of the official school day) will meet all federal, state, and local standards for all nutrient and competitive food guidelines, including USDA Smart Snacks federal nutrition standards.

4. ~~**The district will provide opportunities for students to engage in physical activity by utilizing a Comprehensive School Physical Activity Program.**~~

~~A comprehensive school physical activity program (CSPAP) is the national framework for physical education and youth physical activity. A CSPAP reflects strong coordination across five components: physical education, physical activity during school, physical activity before and after school, staff involvement, and family community engagement (CDC). The district will encourage physical activity in a school's daily education program for grades PK-12, teaching students the skills needed for lifelong physical fitness. Additionally, the district will require that all health/physical education teachers meet the criteria of high qualified.~~

- ~~5.4. **The district shall monitor and review this policy.**~~

~~The district school wellness coordinator or designee shall recommend for Board approval specific quality indicators, as defined by federal law, that shall be used~~

to measure the implementation of the policy. The intent of monitoring this policy is not to police students, staff, and parents but to measure the effectiveness and impact of the policy throughout the district.

At least once every three years, the District's Health Advisory Council (DHAC) will assess this policy and its implantation and may make recommendations for policy revision after conducting its triennial assessment. The results of the committee's triennial assessments will be made available to the public, along with a copy of this policy, upon request.

## MEMORANDUM

DATE: September 11, 2024

TO: Board of Education

FROM: Dr. Don Haddad, Superintendent of Schools

SUBJECT: Approval of Accreditation Recommendations for District Schools  
Strategic Priority - Rigorous, Well-Aligned Standards, Curriculum,  
Instruction and Assessment

RECOMMENDATION

That the Board of Education approves the accreditation recommendations for schools within the St. Vrain Valley School District.

BACKGROUND

The District Accountability/Accreditation Committee is made up of parents and community members, an elementary principal, a secondary principal, and a teacher. Jamie Ball works with the Committee as the liaison from St. Vrain. The Committee met on August 29, 2024, to review the performance of the St. Vrain Schools. As a result of the meeting, the Committee recommends the following accreditation status for schools.

The Committee follows the guidelines of SB 09-163 to recommend accreditation levels for schools and uses the Colorado Department of Education's (CDE) School Performance Frameworks to identify accreditation levels of schools. The framework considers the following data areas to determine school accreditation levels: Academic Achievement, Academic Growth, and Postsecondary and Workforce Readiness. St. Vrain Virtual High School and New Meridian High School are CDE approved alternative campuses and use different assessment data for the framework calculations.

The Committee recommends District Learning Services' personnel meet with schools that are accredited with an improvement, priority improvement, or turnaround plan. At those meetings, schools are asked to answer questions about their current performance, plans to improve that performance, for any additional data that the school might have collected, and what support needs to be provided by the District. The Committee also may request to meet with schools and/or District Learning Services to discuss school improvement plans.

**School Accreditation Levels:** (Based upon Percent of Framework Points)

<b>Level</b>	<b>Cut Pts.</b>
Accredited with Performance Plan	53% or above
Accredited with Improvement Plan	42% - below 53%
