

### **WHEN CAN I APPLY FOR A LATERAL SALARY MOVE?**

Twice a year, certified staff members may submit requests for Lateral Salary Movement per the provisions of Article 32 of the Agreement. Requirements for non-degree vocational teachers are per the provisions of Article 34 of the Agreement.

The lateral submission windows are as follows:

August 1st - October 15th AND  
January 1st - February 15th

Specific courses, conferences, and other professional development activities must be completed by September 1st for the October 15th deadline or January 1st for the February 15th deadline to be considered for lateral salary movement requests.

Request forms, including all required documentation, may be submitted between August 1st and October 15th for retroactive salary adjustments to be effective at the beginning of the contract year. In addition, requests may be submitted between January 1st and February 15th for retroactive salary adjustments to be effective at the beginning of the calendar year in January. The District email system date stamp will determine the submission date.

- Salary adjustments for requests submitted before October 10th and February 10th will be processed with the October or February pay, respectively.
- Salary adjustments for requests submitted between October 10th-15th and February 10th-15th may be processed with the November or March pay, respectively.

### **WHAT CREDITS CAN BE USED FOR A LATERAL SALARY MOVE?**

A minimum of 20 credits (not hours) is required for a lateral salary move. Salary credits must meet the following qualifications to be considered for lateral salary movement:

#### **College or University Credits**

- Graduate-level coursework leading to fulfillment of an advanced degree program in education or directly related to the requesting employee's assignment at the time of enrollment.
- Qualifying/OPD approved - graduate level courses need to meet the rigor and standards of the District.
- Undergraduate-level coursework for Spanish classes is taken after the requesting employee has earned a teaching credential.
- Undergraduate level coursework leading to highly qualified status for the requesting employee's assignment at the time of enrollment and must receive pre-approval in writing from the Office of Professional Development.

#### **Earning a Master's Degree**

- University Master's programs vary in required credits to complete the program. Regardless of the number of credits completed in a Master's program, an MA placement will be granted when transcripts with a conferred Master's Degree are presented.

## Earning a Second Master's Degree

- Credits earned from a second Master's Degree will be counted individually. Every 20 credits will grant a move laterally after the MA placement (ie. to MA20 or MA40.)

\*\*\*Credit for a Master's Degree can only be counted AFTER teaching credentials are obtained. For example, if an individual earned a Master's Degree in Science and then earned a Master's Degree in Education and obtained their teaching credentials, the Master's Degree in Science cannot be counted towards initial placement or a lateral salary move.\*\*\*

## St. Vrain Valley Schools Office of Professional Development (OPD) Credits

- Classes must be listed on the transcripts with the heading SALARY CREDIT
- Classes must be paid for in full and listed on the transcripts. You can print your transcript from Wisdomware, details are included on Page 3.
- OPD credits issued by SVVSD can be applied to a Lateral Salary Movement at any time, regardless of when the class was taken and credits issued.
- OPD credits can only be used once toward a lateral salary movement. For example, if the credits are used to move from BA to BA20, they cannot be counted to move from MA to MA20.
- Professional development credits issued by other school districts will not be accepted for the Lateral Salary Movement.

## Colorado Department of Education (CDE) Coursework

- Any courses offered by CDE will be approved for lateral salary movement.
- Certificates must show the CDE seal, name of attendee, and credits or hours of course.

## Other Courses, Conferences, and Professional Development Activities

- Completion of the [OPD Credit Approval Form](#) must be obtained before the start of the course for guaranteed credit acceptance.
- A certificate of Completion that includes the sponsoring organization name, course title or description, contact hours or CEUs issued, date(s) of the activity, and participant's name must be submitted for each activity being submitted.
- Credits Previously Approved for Carry-Over - Individual credit descriptions or course numbers do not have to be listed on the Lateral Salary Movement Request Form. A single entry indicating the "Carry-Over Credits" total is adequate.

## Salary credits for non-degree vocational teachers are per the provisions of Article 34 of the Agreement.

- Lateral Salary Movement before earning a Master's Degree requires completion of twenty (20) approved hours of professional development directly related to the requesting employee's vocational field and/or assignment.
- Approved hours mean:
  - Undergraduate hours, graduate hours, or specialized technical undergraduate hours directly related to the requesting employee's vocational assignment **at the time of enrollment**. Completion of the [OPD Credit Approval Form](#) **must be obtained before the start of the course for guaranteed credit acceptance**.
- Movement to the MA column requires earning a Master's Degree.
  - Lateral Salary Movement after earning a Master's Degree requires completion of twenty (20) approved hours of professional development directly related to the requesting employee's vocational field and/or assignment as indicated above.

The employee is responsible for keeping a record of new and previously approved courses, conferences, and professional development activities to be submitted for consideration. Transcripts can be viewed when starting a Lateral Salary Move Request, or employees may contact Human Resources to have their university/college transcript file sent to them for review.

## WORKING TOWARDS YOUR MASTER'S DEGREE?

- Certified staff are encouraged to apply for a lateral salary move after completing the first 20 credits of their Master's degree, ie, moving from BA to BA20.
- Suppose Professional Development credits are accumulated at the same time as an employee is working on their Masters. In that case, it is advantageous (but not required) to save those credits for a future lateral move once the Master's is obtained, ie. to move to MA20 soon after moving to MA on the salary schedule.
