EXECUTIVE SUMMARY
ADOPTED BUDGET
2026 – 2027 FISCAL YEAR

BLANK PAGE

SUPERINTENDENT’S BUDGET MESSAGE

DATE: May 27, 2026

TO: Board of Education and Citizens of the St. Vrain Valley School District

This St. Vrain Valley School District (the District) General Fund budget, together with the budgets for other funds for Fiscal Year 2027 (FY27), is the current expenditure plan for all funds generated through local, state, and federal sources, commencing July 1, 2026 and extending through June 30, 2027. This document includes financial, budgetary, and program information that we believe will provide the user with a better understanding of the District’s operations. The accompanying General Fund budget has been prepared showing the adjustments to compensation as agreed to with the St. Vrain Valley Education Association (SVVEA).

The General Fund budget appropriation for 2026-27 is \$662,678,547, which includes beginning fund balance of \$162,116,179 and revenues and transfers in of \$500,562,368.

The following summary provides appropriated resources by fund, including appropriated District reserves. Additional detailed information summarized by fund, operating activity, individual school, and department, as well as other pertinent information is included in the accompanying financial budget document.

Fund #	Proj.		
	Beginning Fund Balance 7/1/26	Budgeted Revenues and Transfers In	Total Appropriation (Total Resources)
10 General Fund	\$ 162,116,179	\$ 500,562,368	\$ 662,678,547
18 Risk Management Fund	4,328,579	5,860,000	10,188,579
21 Nutrition Services Fund	177,494	18,592,471	18,769,965
22 Governmental Grants Fund	-	13,320,348	13,320,348
23 Student Activity Fund	7,246,158	9,900,000	17,146,158
27 Community Education Fund	5,711,605	9,761,540	15,473,145
29 Fair Contributions Fund	11,396,746	1,400,000	12,796,746
31 Bond Redemption Fund	123,150,389	103,400,000	226,550,389
41 Building Fund	66,681,012	269,500,000	336,181,012
43 Capital Reserve Fund	6,502,807	2,210,847	8,713,654
65 Self Insurance Fund	12,875,388	41,025,000	53,900,388
Total	\$ 400,186,357	\$ 975,532,574	\$ 1,375,718,931

The District's FY27 budget will provide instructional and support services for a student body membership of approximately 32,000 students.

The program budgeting process is based primarily upon the Board-adopted Mission Statement, the District's Strategic Priorities, and the goals set by the District's Board of Education.

All final revenues and expenditures are within current limitations established by Colorado Revised Statutes (C.R.S.) and the Taxpayer Bill of Rights (TABOR) Amendment.

The annual budget development is a cooperative effort between the St. Vrain Valley School District's Board of Education, staff, and community. We continue to appreciate the time and support provided by those contributing to the process, especially the Finance and Audit Committee. We invite further participation of anyone interested in helping provide a high-quality education for our children.

Respectfully,

<signature on file>

Jackie Kapushion, Ed.D.
Superintendent of Schools

APPROPRIATION RESOLUTION

Be it resolved by the Board of Education (the Board) of St. Vrain Valley School District RE-1J in Boulder, Weld, and Larimer Counties and the City and County of Broomfield that it hereby appropriates the amounts shown in the following schedule to each fund for the ensuing fiscal year beginning July 1, 2026, and extending through June 30, 2027, and adopts the budgets related thereto.

Fund #	Proj.		
	Beginning Fund Balance 7/1/26	Budgeted Revenues and Transfers In	Total Appropriation (Total Resources)
10 General Fund	\$ 162,116,179	\$ 500,562,368	\$ 662,678,547
18 Risk Management Fund	4,328,579	5,860,000	10,188,579
21 Nutrition Services Fund	177,494	18,592,471	18,769,965
22 Governmental Grants Fund	-	13,320,348	13,320,348
23 Student Activity Fund	7,246,158	9,900,000	17,146,158
27 Community Education Fund	5,711,605	9,761,540	15,473,145
29 Fair Contributions Fund	11,396,746	1,400,000	12,796,746
31 Bond Redemption Fund	123,150,389	103,400,000	226,550,389
41 Building Fund	66,681,012	269,500,000	336,181,012
43 Capital Reserve Fund	6,502,807	2,210,847	8,713,654
65 Self Insurance Fund	12,875,388	41,025,000	53,900,388
Total	\$ 400,186,357	\$ 975,532,574	\$ 1,375,718,931

As indicated in the following schedule, certain funds report a spend-down for the current year, which represents a use of beginning fund balance. Be it further resolved that the Board authorizes the use of a portion of beginning fund balance, the use of which will not lead to an ongoing deficit in the respective fund.

Fund #	Proj.			Budgeted Transfers Out (In)	Surplus/ (Spend-Down)	Ending Fund Balance 6/30/27
	Beginning Fund Balance 7/1/26	Budgeted Revenues	Budgeted Expenditures

EXECUTIVE BUDGET SUMMARY BY FUND

While the appropriation resolution represents the total resources available to the District, it does not reflect the current year spending plan. The following Executive Budget Summary by Fund presents a snapshot of the budgeted changes to fund balance for each fund based on the anticipated revenues and expenditures as contained within each of the individual fund budgets. Details on each fund budget can be found in the accompanying financial document.

DISTRICT GOALS AND OBJECTIVES

VISION

To be an exemplary school district which inspires and promotes high standards of learning and student well-being in partnership with parents, guardians, and the community.

MISSION

To educate each student in a safe learning environment so that they may develop to their highest potential and become contributing citizens.

STRATEGIC PRIORITIES

Our vision and mission are achieved through a focus on ten strategic priorities that support the advancement of student achievement and global success.

FINANCIAL SERVICES DEPARTMENT

The focus of the District's Financial Services Department, led by Tony Whiteley, Chief Financial Officer (CFO), is to maximize the effective use of District resources towards improving student achievement and well-being.

The Financial Services Department is responsible for the following operations:

Budget & Finance: Develop, implement, and monitor the District's annual budget, manage daily cash flows and investments necessary to meet the District's financial obligations, minimize risk and maximize returns, and coordinate voter-approved debt issuances and repayment.

Procurement: Source goods and services for the District to ensure competitive pricing and compliance with policy, statute, and best practices.

Accounting & Reporting: Maintain complete and accurate records of all financial transactions, prepare financial reports, including the District's Annual Comprehensive Financial Report, account for all grant revenues and expenditures, and provide internal controls and safeguards of all District assets.

Disbursements: Manage the District's payroll and accounts payable functions, administer purchasing card program, to ensure vendors and personnel are paid for goods and services provided.

School Business Services: Provide training and support to District staff and parent/teacher organizations.

Enrollment & Data Quality: Perform a count and tracking of all students in accordance with Colorado law, and provide tools and mechanisms to comply with the District's records retention policy.

Business Information Systems: Manage the District's integrated systems and processes to collect, store, process, and distribute information to support decision making and analysis.

BUDGET DEVELOPMENT PROCESS

State of Colorado

The District's budget development timeline is guided by the State of Colorado's budget timeline and statutory requirements.

The State releases the Governor's budget proposal by November 1 which gives preliminary state budget information for the following school year. The School Finance Act, which determines state funding for school districts, is usually passed by the end of April. Funding is typically revised the following January after actual pupil counts and assessed valuations are finalized.

Within that context, the State requires that the District's proposed budget be presented to the Board of Education at least 30 days prior to the beginning of the fiscal year (July 1) and that the District publish a public notice within 10 days of submitting the proposed budget to the Board. A public hearing must be held after the publishing of the public notice and prior to the adoption of the budget. The budget must be adopted by the Board prior to the beginning of the fiscal year.

The State allows for districts to amend their budgets at any time prior to January 31. After January 31, a supplemental budget may be authorized only if additional funds become available to the District.

Budget Goals and Priorities

The District develops a five-year budget plan that projects the future financial viability of the District, and achievement of the District's priorities. The plan considers a specific set of operating assumptions, future revenue, including tax and non-tax revenue, and future increases in operating expenditures. Using this five-year outlook, the Board reviews the overview and accountability needs and works with the Superintendent to set the District focus, goals, and priorities for the budget development.

Discretionary (Non-Personnel) Budgets

Each school and department is allocated a non-personnel budget that is developed with the Finance Department's budget staff each February.

Funds are initially allocated to schools based on projected student enrollment numbers and are updated mid-year once actual student counts are finalized.

The allocations to departments use the prior year budget as a starting point, and additional funds may be requested and approved. Requests for additional funds, along with justification for the requests, are submitted to Cabinet in March and approved in April in alignment with the District's goals and priorities.

Personnel

Because salaries and benefits account for approximately 86% of the General Fund budget, the allocation of staffing resources is a critical part of the budgeting process. The process is facilitated using staffing plans that are created by the Finance Department and distributed to each school and department by the Human Resources Department in early February. The staffing plans allocate the number of positions that each school and department may utilize in the upcoming year. They are completed collaboratively by Human Resources staff, central administrative staff, and school/department staff. In March, the staffing plans are reconciled to the accounting software and controls are put into place to prevent hiring of staff beyond what is approved through the budgeting process.

The number of positions on each school staffing plan is determined by formulas and ratios using criteria such as projected enrollment numbers that are provided by the Planning Department, type of school (elementary, K-8, middle, or high school), and risk factors such as eligibility for Title I funding and number of students that qualify for free or reduced meals.

The Finance Department, Human Resources, and Area Assistant Superintendents collaborate each January to finalize the criteria that is used. Additional positions are allocated to the schools by individual departments for specialized needs such as Special Education and Preschool programming. Schools may also request additional ongoing or one-year only positions to accommodate focus areas or specialized needs of the individual schools. The requests are typically submitted to the Superintendent's Cabinet in March and are approved in April based on District goals and priorities. In August and September, Human Resources works with Principals and Area Assistant Superintendents to review the staffing needs of the schools based on actual enrollment and reallocate staffing and/or request new positions at Cabinet if needed.

Department staffing plans are created by using the previous year's positions as a starting point. Additional positions funded by grants may also be added. Grant-funded positions must be reauthorized each year after verifying that funds will be available. Departments may also request additional staffing by submitting requests to Cabinet.

The District's compensation package is typically approved by the Board of Education in April or May following negotiations with the St. Vrain Valley Education Association. The compensation information is combined with the approved staffing allocations and available benefits enrollment information to establish the budget for salary and benefits. Updated insurance enrollment information is provided to the Budget Office in October for inclusion in the amended budget.

Capital Improvement Planning

The District's long-range capital planning is developed through the process of reacting to the needs identified and prioritized through asset performance assessments. Capital Improvement planning is typically broken into two categories: Capital Renewal and Capital Improvement.

- Capital Renewal would be categorized as evaluating building systems and assets based on a life cycle analysis. This analysis considers industry standard life expectancy, system performance determined by the level of effort to maintain the expected operation, ability to service equipment in the future, etc., for which funding could be appropriated for years in advance.
- Capital Improvement projects are borne from more specific projects that are created out of the short-term need more than the Capital Renewal projects. These are created through facility modification requests, education programmatic needs, and unforeseen asset repairs or replacements. Schools and departments submit project and equipment funding requests. Requests are evaluated and recommended by the Capital Reserve Committee and submitted to the Board of Education for final approval.

Budget Monitoring

The District monitors its budget to actual activity throughout the year in multiple ways:

- The accounting and reporting team prepare and publish periodic financial reports highlighting budget to actual progress for each fund. This is done on a quarterly basis for the first half of the year, and monthly thereafter. These reports are then summarized in a dashboard format and presented to the District's Finance and Audit Committee, and then to the Board of Education in a subsequent study session.
- Staff within each school and department utilize the District's Enterprise Resource Planning (ERP) system to review in real time transactions, as well as reconcile to secondary tracking tools to monitor their individual budgets.
- Budget staff completes a budget performance report analysis and provides summary data, observations, and variance analysis to the appropriate budget manager.

SIGNIFICANT FINANCIAL AND DEMOGRAPHIC CHANGES

Total Program

A new school finance formula in the State of Colorado was enacted beginning with the 2026 fiscal year. To lessen the financial impact of the changing formula on the State, the new school funding legislation will be phased in over a seven-year period. For FY27, districts will receive the amount calculated under the expiring Public School Finance Act of 1994 formula plus 30 percent of the difference between the expiring formula and the new formula.

Under the expiring Public School Finance Act of 1994 districts receive a base per pupil amount that is adjusted based on a district's cost of living and size. This adjusted per pupil amount is then multiplied by a district's funded pupil count. Districts then receive additional funding for at-risk, English Language Learners (ELL), online, and extended high school students. The formula structure is multiplicative, meaning that district adjustments made to the base for cost of living and size factors flow through to the amount of funding that districts receive for other factors like at-risk and ELL.

The new formula is additive, meaning that each factor is calculated directly using the base per pupil amount and then funding for each factor is additively summed to calculate a district Total Program Funding (TPF). The new formula structure is split between three categories, Foundation Funding, Student Factors, and District Factors.

Foundation Funding

Foundation funding is associated with the statewide base per pupil amount that is constitutionally required to increase each year by at least the rate of inflation. For FY27, this amount is \$8,900.40. The base per pupil is then multiplied by the funded pupil count, excluding online and extended high school students.

Student Factors

At-Risk Funding: Calculated by multiplying the 0.25 at-risk factor by the base per pupil amount and the number of at-risk students.

ELL Funding: ELL funding is calculated by multiplying the 0.25 ELL factor by the base per pupil amount and the number of district ELL students.

Special Education Funding: The special education funding is calculated by multiplying the 0.25 special education factor by the base per pupil amount and the number of students who have identified disabilities.

Online/Extended High School Funding: Online and extended high school students, excluding students in the Teacher Recruitment Education and Preparation (TREP) program, are funded at \$10,732.00. The TREP program is funded at \$7,104 per student in FY27. The TREP program will then be phased out of the school finance formula after the 2028 fiscal year.

District Factors

Cost of Living Funding: The cost of living factor is established by comparing each district's cost of living to the lowest cost of living district and recalculated every two years. The cost of living factor for St. Vrain is 0.201 and is multiplied by the base per pupil amount and the funded pupil count, excluding online and extended high school students.

Size Funding: Only districts with a funded pupil count less than 6,500 may receive size factor funding. Based on its size, St. Vrain Valley School District will not receive size factor funding.

Locale Funding: Locale factors are determined by the National Center for Educational Statistics. These designations are based on the geography and population of the school district. Districts with rural or town locale designations receive funding

with weighted differences based on distant, remote, or fringe designations. St. Vrain Valley School District does not fall into one of these locale designations and does not receive locale funding.

Funding Elements

Total Program is funded by three sources: Local Property Tax, Specific Ownership Tax (i.e., vehicle registrations), and the remainder is provided to the District by the State of Colorado through what is called "State Equalization." State Equalization for the District will increase by \$6.9 million, as local property tax remains flat, and a slight decrease of \$0.3 million to specific ownership tax share. Additional information regarding property taxes can be found in the "Tax Base and Rate Trends" section of this document. With changes to Colorado's finance formula the District's portion of TPF for FY27 will increase by \$6.6 million (1.9%) compared to FY26.

Student Enrollment

Each year, public school districts across Colorado take part in the Student October Count data submission to the Colorado Department of Education (CDE). The October Count is based on a single-day enrollment count, during which districts report all students who are enrolled and attending classes. The District's FY27 student enrollment is projected to decrease by 253 to 32,026 PK- 12th grade, a change of -0.78% compared to FY26 in large part due to the closure of Carbon Valley Academy charter school. The District has seen enrollment changes ranging between -0.78% and 0.72% per year over the past five years.

Funded Pupil Count

Funded Pupil Count (FPC) is the count of students funded through TPF. FPC can be different from the total number of students enrolled in the district. Most notably, enrolled preschool students are not included in FPC, as preschool is funded outside of the TPF formula.

In addition, the calculation of FPC allows districts to take an average of recent enrollment, as a mechanism to prevent funding cliffs and mitigate fluctuations in TPF. Previously under the Public School Finance Act of 1994, districts were permitted to use an enrollment average of up to 5 years to calculate FPC. Current methodology now uses the greater of the current year enrollment or the average of the current year and the two prior years, which may reduce the total funding available for some districts.

For FY27 the District's funded pupil count is projected to decrease by approximately 387 to 30,492.50 a reduction of 1.25% compared to FY26.

Free/Reduced Lunch

In November 2022, Colorado voters approved funding for the Healthy School Meals for All (HSMA) program, which supplements federal funds with state dollars to provide free breakfast and lunch to all students, regardless of their eligibility for free or reduced qualifying status. In November 2025, two ballot measures were approved by voters to fix a budget shortfall within the HSMA program. Proposition LL allows the state to keep the additional revenue collected from the original approval of HSMA; this action was required due to the State's Taxpayer's Bill of Rights (TABOR) laws. Proposition MM increased taxes on households earning \$300,000 or more by further limiting their state income tax deductions. This is expected to raise an additional \$95 million per year for the program.

Although free breakfast and lunch are provided, school districts must still identify students who qualify for free or reduced-price meals, as this data is used to calculate funding. Free and reduced-price meal status remains a key factor in determining TPF, as it identifies at-risk students who qualify with the District for additional support. The percentage of students qualifying for these benefits is projected to remain flat resulting in minimal change to the District's per-pupil revenue.

Pandemic Relief

Between FY20 and FY25 the District received more than \$62 million in various COVID-19 Pandemic relief funds. These funds were required by Federal law to be expensed by September 30, 2024. The District has not encountered a funding cliff, however, due to strategic budgeting to ensure ongoing programs were not being sustained by these temporary resources.

Universal Preschool

The Colorado Department of Early Childhood operates the Universal Preschool Program (UPK) that replaced the Colorado Preschool Program (CPP) in fiscal year 2024. All children can register for up to 15 hours of free, high-quality preschool in the year before kindergarten. Depending upon available funding, families may qualify for more hours if the family is low-income (defined as a household with income at or below 270% of the federal poverty guidelines) and have a qualifying factor. Qualifying factors include homeless and/or unhoused, multilingual, special education with an Individualized Education Program (IEP), poverty (less than 100% of the federal poverty guidelines), or foster care. The projected UPK rates for St. Vrain Valley Schools are \$4,968.00 for the school year for 10 hours per week, \$6,264.00 for 15 hours, and \$11,123.90 for 30 hours. St. Vrain Valley School District will offer 10 hours per week of free preschool to students in FY27. Students can attend additional hours for a fee.

UPK also allows funding for three-year-olds to attend preschool however they must meet specific eligibility criteria. A three-year-old is eligible for ten hours of weekly funding if they have at least one qualifying factor, such as if the family is low-income (defined as a household with income at or below 270% of the federal poverty guidelines), special education with an IEP, or multilingual. Additionally, children in foster care or those experiencing homelessness automatically qualify for preschool.

Changes in Debt

In November 2024, District voters authorized \$739.8 million of additional general obligation debt to ensure the District's continued commitment to academic excellence, accountability, safety, and providing the education that today's students will need for tomorrow's jobs and careers.

On December 4, 2024, the District successfully sold \$342,960,000 of general obligation bonds, which represented the first installment of bonds issued by the District as approved in the November 2024 election. The District's bonds were rated Aa1 by Moody's and AA+ by Standard and Poor's, reflecting the District's strong credit profile. Given the market's demand for such high-quality bonds, the sale generated a premium of approximately \$34,562,000, reflecting a net interest cost of 3.43% and resulting in approximately \$375.9 million of funds available for capital projects. These positive financing results are a benefit to the District and its constituents, generating additional project funds at a lower cost to taxpayers.

With sufficient resources available in its Bond Redemption Fund, the District has been able to fund the early repayment of bonds. Examples include:

- On November 14, 2024, the District defeased the remaining \$37,465,000 of its Series 2014A bonds. On December 16, 2024, the bonds became callable and were redeemed without penalty. The defeasance generated an interest savings of approximately \$2,261,000.
- On December 16, 2024, the District defeased the 2025-2029 maturities of its Series 2016C bonds. The five maturities represented \$43,825,000 in principal. On December 15, 2026, the defeased bonds will become callable and the five maturities will be redeemed without penalty. This action reduces the total interest paid by approximately \$7.7 million, representing a savings of approximately \$5,379,000.

The District's long-term debt, in the form of general obligation bonds, totaled \$550,735,000 as of June 30, 2025. On June 30, 2026 the total was \$484,195,000 after the December 2025 principal payments.

The legal debt limit of 20% of the District's 2025 assessed valuation of \$5.83 billion was \$1.17 billion. This exceeds the net amount of the District's bonds payable by approximately \$682.2 million. Additional information on the District's Debt Service can be found in the Financial Section Fund 31 – Bond Redemption Fund and the Informational Section.

Fund Balance and Multi-Year Projections

The District routinely experiences budget outperformance, or a positive budget-to-actual variance due to conservative revenue and expenditure budgeting practices. Most notably, the budget includes salary and benefit expenditures for all approved positions, which does not account for natural savings from vacancies and turnover.

Beyond FY27, revenue projections are driven primarily by estimated TPF, as defined by the School Finance Act (SFA). However, the State may continue to adjust the funding formula, making future predictions less certain. Revenue projections will be impacted primarily by inflation and student enrollment, in addition to a gradual increase related to recent revisions to the school finance formula. Per Pupil Revenue (PPR) is expected to increase by inflation of 2.5% to 2.9% per year from FY28 to FY30, based on the most recent estimates published by the State of Colorado. District enrollment is expected to remain stable or see modest increases over the same period.

Increases in expenditures assume salary adjustments for a step and step equivalent, health insurance premium adjustments between 5% to 10.0% per calendar year, a consistent Public Employees Retirement Association (PERA) contribution rate of 21.4%, staffing adjustments associated with enrollment and programmatic changes, and contractual increases in annual software license renewals.

Compensation increases are determined annually, based on available resources and through negotiations with the SVVEA. To ensure ongoing personnel costs align with ongoing revenues, projected compensation increases approximate the inflation estimates discussed above.

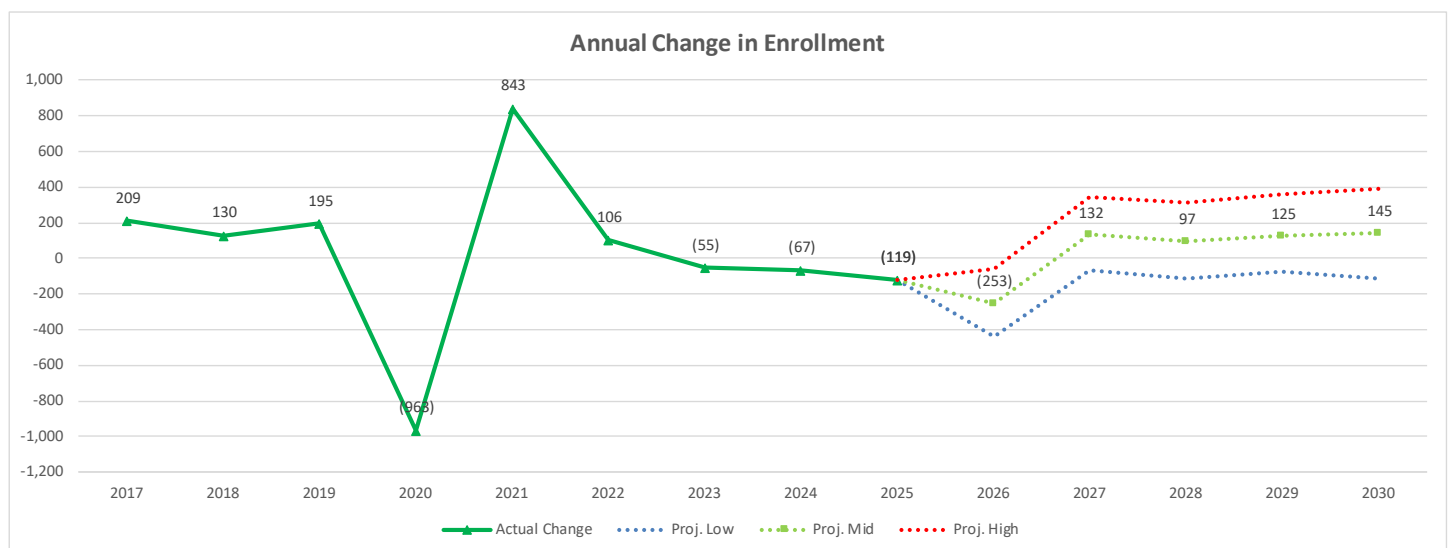

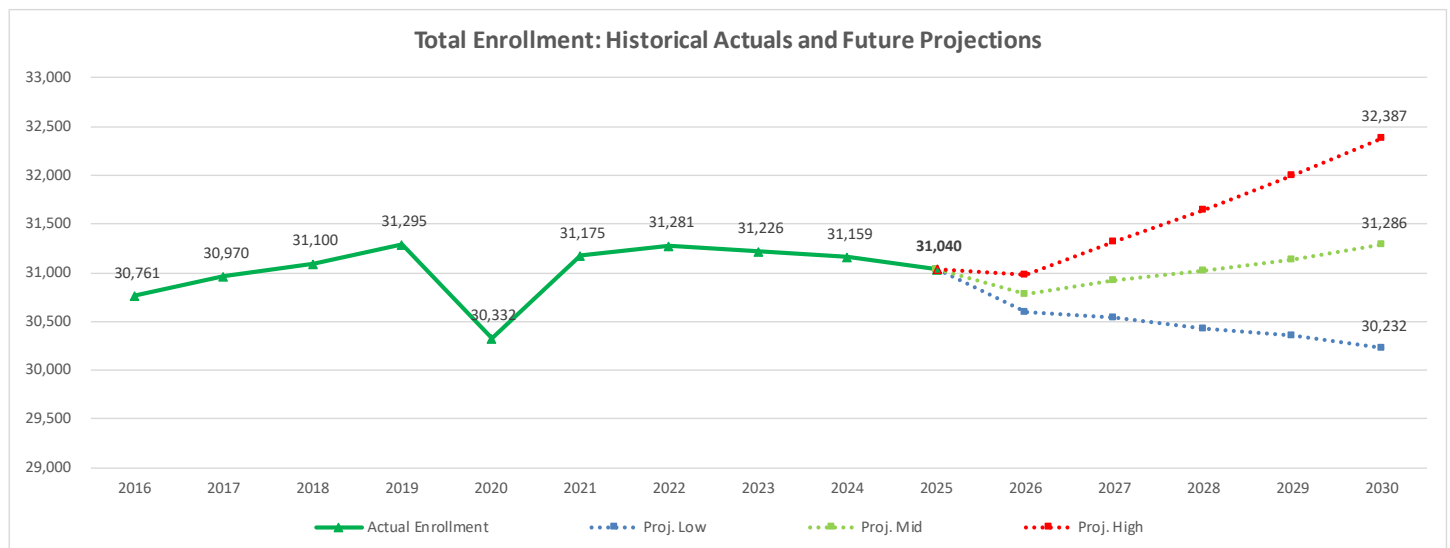

Total fund balance is expected to fluctuate throughout the next few fiscal years due primarily to the 2024 voter approved bond program. As the bond moves through its seven to eight year timeline, the District plans to sell additional bonds in fiscal years 2027 and 2029 which will cause these fluctuations in fund balance. Fund balance for the General Fund is expected to decrease in the next two forecasted fiscal years and then stabilize, which again does not account for the budget outperformance described above. The District monitors and manages fund balance to ensure future uncertainties are addressed without significant interruptions to core educational services.

ENROLLMENT TRENDS AND FORECAST

Each year, public school districts across Colorado take part in the Student October Count data submission to the Colorado Department of Education (CDE). This process, required by state statute, collects student-level data including details about funding eligibility as outlined in the Public School Finance Act (as amended). The October Count is based on a single-day enrollment count, during which districts report all students who are enrolled and attending classes. The actual enrollment numbers presented below come from the October Count for the year indicated. Beyond 2025, enrollment estimates are presented with a low, mid, and high projection. Most often the midpoint is used in future year projections.

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Proj.	2026	2027	2028	2029	2030

PERSONNEL RESOURCE ALLOCATIONS

The District starts its personnel allocation process each February for the following school year. It begins with a systematic, formulaic student-based approach to ensure that sufficient Full-Time Equivalent (FTE) personnel are made available for the effective operation of each school and department. Then, using this as a starting point, school, department, and central administration teams work with Human Resources (HR) and Finance to qualitatively analyze needs as the school year approaches, and work to allocate additional resources in order to target specific areas, maximizing learning for District students.

ST. VRAIN VALLEY SCHOOL DISTRICT RE-1J ALLOCATION OF FULL-TIME EQUIVALENT (FTE) EMPLOYEES BY FUNCTION FISCAL YEARS 2023 – 2027

	FY23	FY24	FY25	FY26	FY27

Total Other Funds FTE	397	444	469	470	413
Total FTE	3,733	3,854	3,897	3,904	3,843

Explanation of Personnel Changes

The District maintains a strong fund balance, as a result of conservative budget practices and fiscal prudence. In recent years, the District has been able to leverage revenue increases to support new and existing programmatic staffing needs throughout the District. Current year changes in allocated FTE are described below:

Direct Instruction/Classroom Support

With relatively stable enrollment from FY26 to FY27, there were no significant changes to the standard year-over-year staffing allocations. However, the District reduced staffing by 11.00 FTE this includes adjustments for prior year one-time staffing allocations, and a net reduction of counselors at our smallest Elementary Schools. In addition:

- A new Principal and one support staff in anticipation of the new elementary school opening in FY28.
- Reduced the Deputy Superintendent position and did not replace an Assistant Superintendent position upon retirement.

Building/Central Support

- The Custodial department added an additional 6.0 custodians to support new buildings within the District.
- The Transportation department added 2.0 Bus Drivers to support routes for the new PK-8 Big Sky.

Other Funds

- The Grant Fund had a reduction of approximately 14.0 FTE due to the sunset of the Opportunity Now grant.
- In its effort to maintain breakeven operations, the Nutrition Services Fund reduced budgeted FTE by 23.0, some of which remained vacant in recent years.
- The Student Activities Fund reports certain paraprofessional positions funded by Parent Teacher Organizations. At this time, there is a reduction of 12.0 FTE. However, we expect additional positions to be verified and added closer to the start of the school year.

SIGNIFICANT TRENDS, EVENTS, AND INITIATIVES

Graduation Rates

The foundation of the District's success begins the moment students enter preschool or kindergarten and is built throughout their 12-14 years in the District. Everything across our system impacts our graduation rates, which is why this is such an important indicator of the quality of our teachers, students, and system. In 2025, St. Vrain Valley Schools achieved the highest on-time graduation rate in the District's history at 96.8%. This is the highest graduation rate of any district in the Denver Metro area, and one of the highest of any district in Colorado with more than 300 graduates.

High Schools Achieve College Board's Advanced Placement Honor Roll Recognition

Eight high schools have been honored with the distinguished College Board Advanced Placement (AP) School Honor designation, acknowledging outstanding student performance on college-level AP exams. St. Vrain Valley Schools offers students a robust and comprehensive selection of 35 AP courses. In 2025, the District saw 3,048 students take 5,372 AP exams. Additionally, 1,147 students earned AP scholar recognition by scoring three or higher on at least three AP exams, with many achieving higher distinctions through the AP Capstone Diploma or the AP Seminar and Research Certificate.

Big Sky PK-8

Big Sky PK-8 in Mead is scheduled to open in Fall 2026 as part of the St. Vrain Valley Schools' 2024 Bond initiative. The school will follow a phased opening approach, starting with grades PK-6 for the 2026-2027 school year, then adding seventh grade in 2027, and eighth grade in 2028. The addition of this school does not increase total district enrollment or expenditures; instead, students and operational resources are being absorbed from existing area schools to alleviate overcrowding and ensure a more balanced enrollment distribution. Led by Principal Joshua Barnett, the new 145,755-square-foot facility is located on a shared campus with Mead High School and is designed to accommodate approximately 1,100 students. Its modern campus features adaptable learning wings, specialized STEM and art spaces, and energy-efficient architecture designed to maximize panoramic local views.

Future Ready

The Future-Ready Festival, hosted at Silver Creek High School, serves as a premier showcase of the diverse academic pathways and innovative programming available across St. Vrain Valley Schools. This community-wide open house is designed to provide families and community members with an immersive look at the "St. Vrain Advantage," highlighting how the district integrates rigorous academics with 21st-century technology. By featuring interactive learning zones and expert speaker series, the festival reinforces the District's commitment to providing high-quality, future-focused education that prepares students for success in a rapidly changing global economy.

The festival's design centers on transparency and engagement, offering a "shared vision" through direct interaction with district leadership, including Superintendent Dr. Jackie Kapushion. Beyond the technical exhibits, the event provides a platform for families to explore essential district services, from finance and bond updates to specialized programming like Gifted and Talented and Special Education. This comprehensive approach ensures that all stakeholders understand the strategic investments being made to support student achievement and operational excellence across the District's various feeder systems.

Finding their Game

St. Vrain Valley Schools is experiencing a record surge in athletic participation, with over 5,500 high school athletes competing annually across more than 20 sports. The District has strategically expanded its offerings to include high-demand programs like Girls' Wrestling and Boys' Volleyball, which have seen rapid growth and high levels of student

engagement. These programs provide vital opportunities for students to build confidence, represent their schools, and foster community connections through competitive play.

To ensure the long-term success of these programs, the District employs a data-driven evaluation process before introducing new sports. This involves surveying family interest, assessing facility capacity, and consulting with the Colorado

High School Activities Association (CHSAA) to ensure sustainable league play. By balancing student passion with fiscal and operational responsibility, the District continues to create a thoughtful path for athletic expansion that enhances the overall educational experience.

Cutting Edge Skills for a Changing Workplace

St. Vrain Valley Schools is strategically redesigning the educational experience to ensure students graduate with the "cutting-edge" and durable skills necessary for a rapidly shifting workforce. By moving beyond traditional models, the District integrates technical proficiency in fields like coding, biomedical science, and advanced manufacturing with essential human skills such as critical thinking, collaboration, and adaptability. This "skills-first" approach ensures that students are not only prepared for the jobs of today but are also resilient enough to navigate a future increasingly defined by Artificial Intelligence (AI) and automation.

The District's commitment to workforce readiness is grounded in real-world application, where students take their learning out of the classroom and into professional environments. Through deep industry partnerships, St. Vrain provides seamless pathways to high-demand careers. By offering industry-recognized certifications, paid apprenticeships, and work-based learning, the District bridges the talent gap and offers students a tangible return on their educational investment, driving both individual economic mobility and regional growth.

Democracy Day

St. Vrain Valley Schools students are at the forefront of civic engagement and ethical technology use, as demonstrated during the District's recent "Democracy Day." This initiative encourages students to grapple with the complex intersections of modern life and governance, specifically focusing on how emerging technologies impact our society. By fostering an environment where students can debate and explore these real-world issues, the District is preparing them to be informed, active citizens who can navigate the legal and social challenges of the 21st century.

A central theme of the event involved the ethical implications of surveillance and artificial intelligence (AI) in public spaces. Students engaged in rigorous discussions about the balance between safety and privacy, analyzing the impact of AI-driven monitoring systems in schools and communities. Additionally, the event highlighted the rise of sustainable transportation, specifically e-bikes, as a case study for how local policy and individual behavior intersect. This curriculum-integrated approach ensures that students aren't just learning about democracy in the abstract but are actively participating in the conversations that shape their future.

Students have taken their learning beyond the classroom by developing practical projects that address these themes. For instance, student groups have worked on policy proposals for e-bike safety and infrastructure in their local municipalities, while others have designed AI-awareness campaigns to help their peers understand how data is collected and used by digital platforms. During the "Democracy Day" forums, students also simulated legislative sessions where they argued the merits of student privacy protections and presented research on the impact of automated technologies on local elections. These hands-on experiences empower students to see themselves as stakeholders who can influence both technological trends and civic policy.

PROPERTY TAX FUNDING

The amount of property tax owed by a taxpayer for the school district is based on the property's assessed valuation, multiplied by the District's mill levy, and then divided by one thousand (one mill is equal to one dollar per \$1,000 of assessed value). Assessed valuation and mill levy rates are certified annually each December, and collected the following year. The District's current mill levy is 57.717, which was certified in December of 2025 for collection in 2026. The assessed value of a property is determined by multiplying its value (as determined by the County Assessor) by the assessment rate, which varies depending on the type of property. See below for an example on how the 2025 property tax owed in 2026 is calculated:

Actual Value	X	Assessment Rate	X	Mill Levy	/	1,000	=	Annual Property Tax
\$450,000		7.05%		57.717		1,000		\$1,831.07

Tax Base and Rate Trends

Approximately 48.0% of the District's General Fund revenue is projected to come from local property taxes which consists primarily of taxes levied as part of the local share of Total Program Funding (TPF) and Mill Levy Overrides (MLO). Each school district is required by statute to impose a property tax levy to finance its local share of TPF. This mill rate is set by the state and is currently 27.000 mills for the District. With an estimated assessed valuation of approximately \$5.83 billion the TPF local share is estimated to be \$157.5 million.

Mill levy overrides are additional revenues that have been approved by district voters. The voters of the District passed mill levy overrides in November of 2008 and 2012, both of which provide additional funds for a variety of items as defined within the ballot questions. With no estimated change in assessed valuation, mill levy override revenue is projected to remain flat at \$79.3 million in FY27.

Property taxes also fund the repayment of the District's general obligation debt through the Bond Redemption Fund, amounting to approximately \$97.5 million in FY27.

The table below shows the history of the District's property tax mill levies and net assessed values for the past seven years as well as projections for the next 3 calendar years. Oil and gas property have stabilized from the spike in 2023. In a non-reassessment year residential and commercial property values are expected to remain stable, though assessment rates are governed by recent property tax legislation. Residential rates are set at 7.05% or 6.95% if statewide growth is greater than 5.00%.

SUMMARY OF NET ASSESSED VALUATION AND PROPERTY TAX LEVIES CALENDAR YEARS 2019 – 2028

Levy Year	Total Assessed Value	Percent Change	Total Property Tax Levies
2028*	6,008,048,155	1.00%	57.507
2027*	5,948,562,529	2.00%	57.507
2026*	5,831,924,047	0.00%	57.507
2025	5,831,924,047	9.09%	57.717
2024	5,345,916,608	-12.34%	57.168
2023	6,098,628,541	23.01%	57.238
2022	4,957,810,888	20.57%	58.385
2021	4,112,116,131	0.37%	57.358
2020	4,097,136,717	-1.90%	56.542
2019	4,176,299,241	0.00%	57.559

DISTRICT GOVERNANCE

The St. Vrain Valley School District RE-1J is a body corporate and a political subdivision of the State of Colorado. It was organized in 1961 for the purpose of operating and maintaining an educational program for the school-age children residing within its boundaries.

The District is governed by an elected seven-member board. School board members represent different geographic districts, but are elected by voters in the entire District. The unpaid board members serve four-year terms and are limited to two terms.

The District, under the governance of the Board of Directors, has authority to determine its own budget, levy taxes, and issue bonded debt without approval from the State or by another government, making it fiscally independent.

BOARD OF EDUCATION DIRECTOR DISTRICTS

DISTRICT GOALS AND OBJECTIVES

VISION

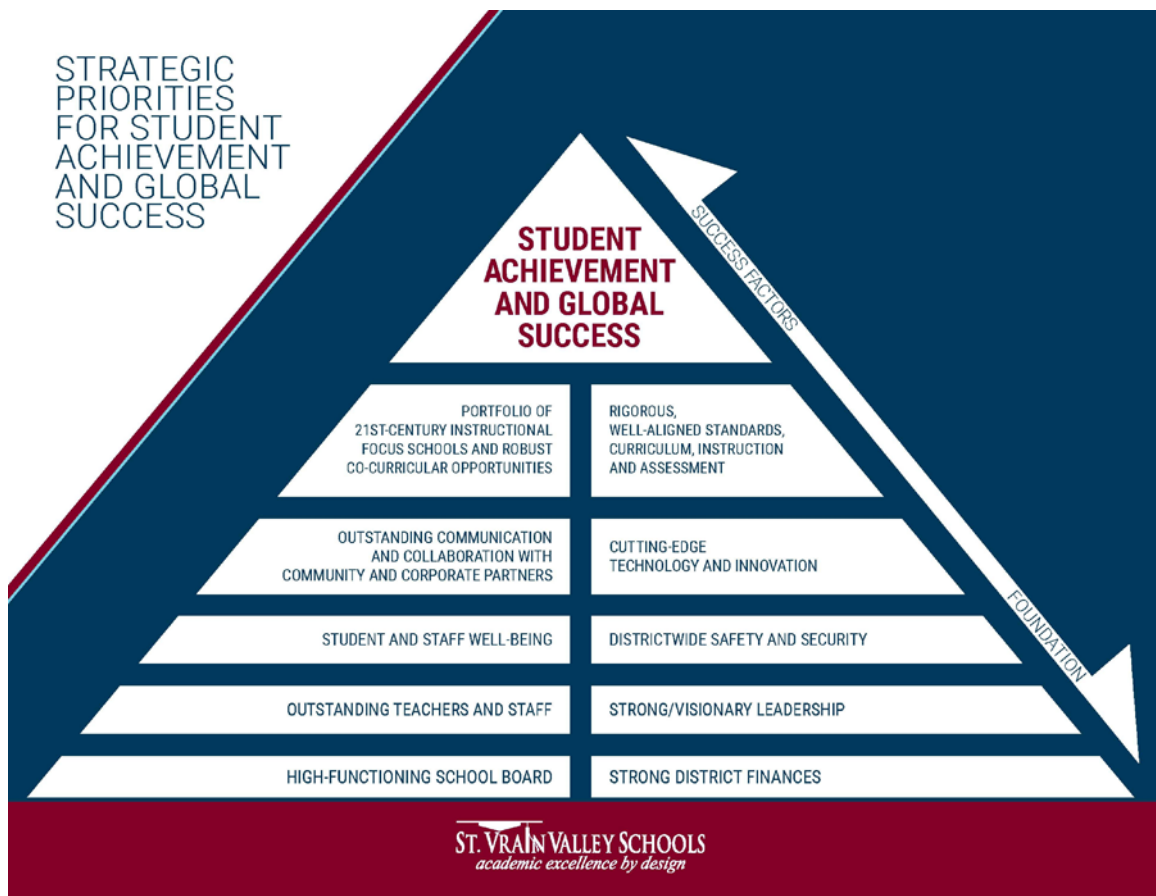

To be an exemplary school district which inspires and promotes high standards of learning and student well-being in partnership with parents, guardians, and the community.

MISSION

To educate each student in a safe learning environment so that they may develop to their highest potential and become contributing citizens.

STRATEGIC PRIORITIES

Our vision and mission are achieved through a focus on ten strategic priorities that support the advancement of student achievement and global success.

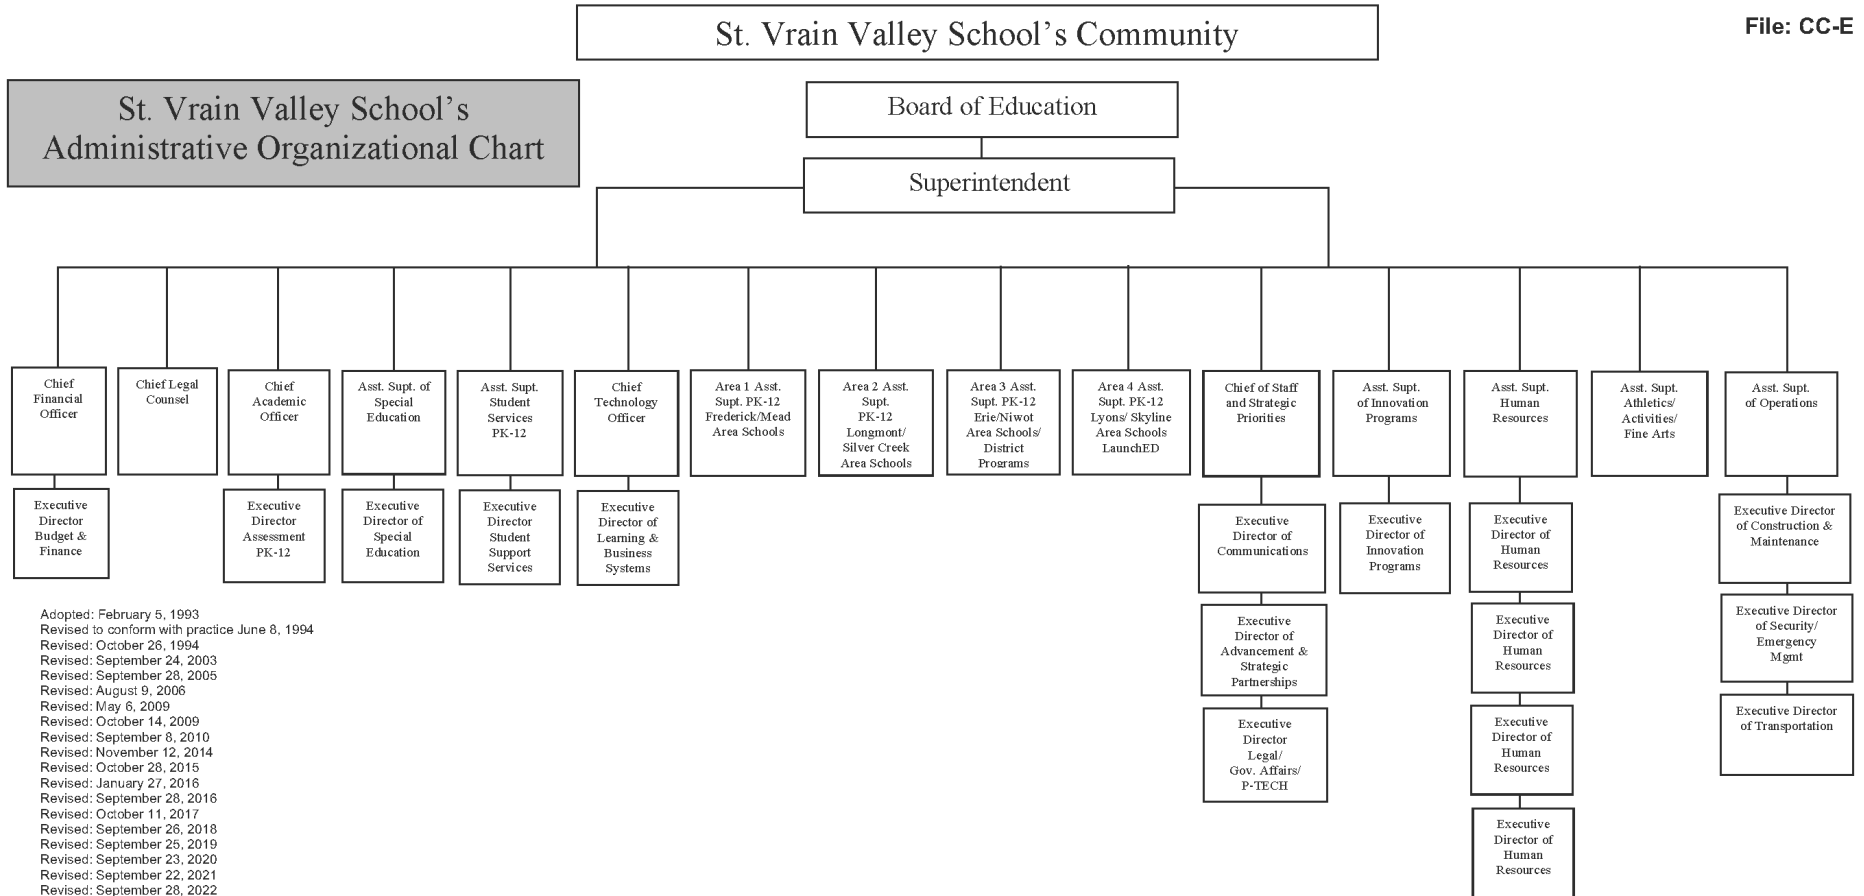

COST OF GOALS

In November of 2008 and 2012 voters of the District approved mill levy overrides (MLO), both of which provide additional funds for a variety of items as defined within the ballot questions and goal initiatives of the District. As required, accounting for the MLO funds is incorporated within the General Fund totals. The following is a summary of objectives supported by MLO funds for FY27.

Investment Item	Estimated Budget	Focus Area
Advanced Placement Programs	\$ 43,000	Rigorous, Well-Aligned Standards, Curriculum, Instruction & Assessment
School Focus Allocations	3,206,919	Portfolio of 21 st Century Instructional Focus Schools & Robust Co-Curricular Opportunities
Operations & Maintenance	4,461,000	Districtwide Safety & Security
Preschool Programs	1,606,780	Rigorous, Well-Aligned Standards, Curriculum, Instruction & Assessment
Reduced Class Sizes	13,640,000	Rigorous, Well-Aligned Standards, Curriculum, Instruction & Assessment
Safety & Security	4,878,562	Districtwide Safety & Security
STEM Programming	4,710,200	Cutting-Edge Technology & Innovation
Teacher/Staff Compensation	29,760,000	Outstanding Teachers & Staff
Technology	15,412,362	Cutting-Edge Technology & Innovation
Charter School Allocations	7,726,178	Outstanding Communication & Collaboration with Community Partners
Total	\$ 85,445,001	

ORGANIZATIONAL CHART

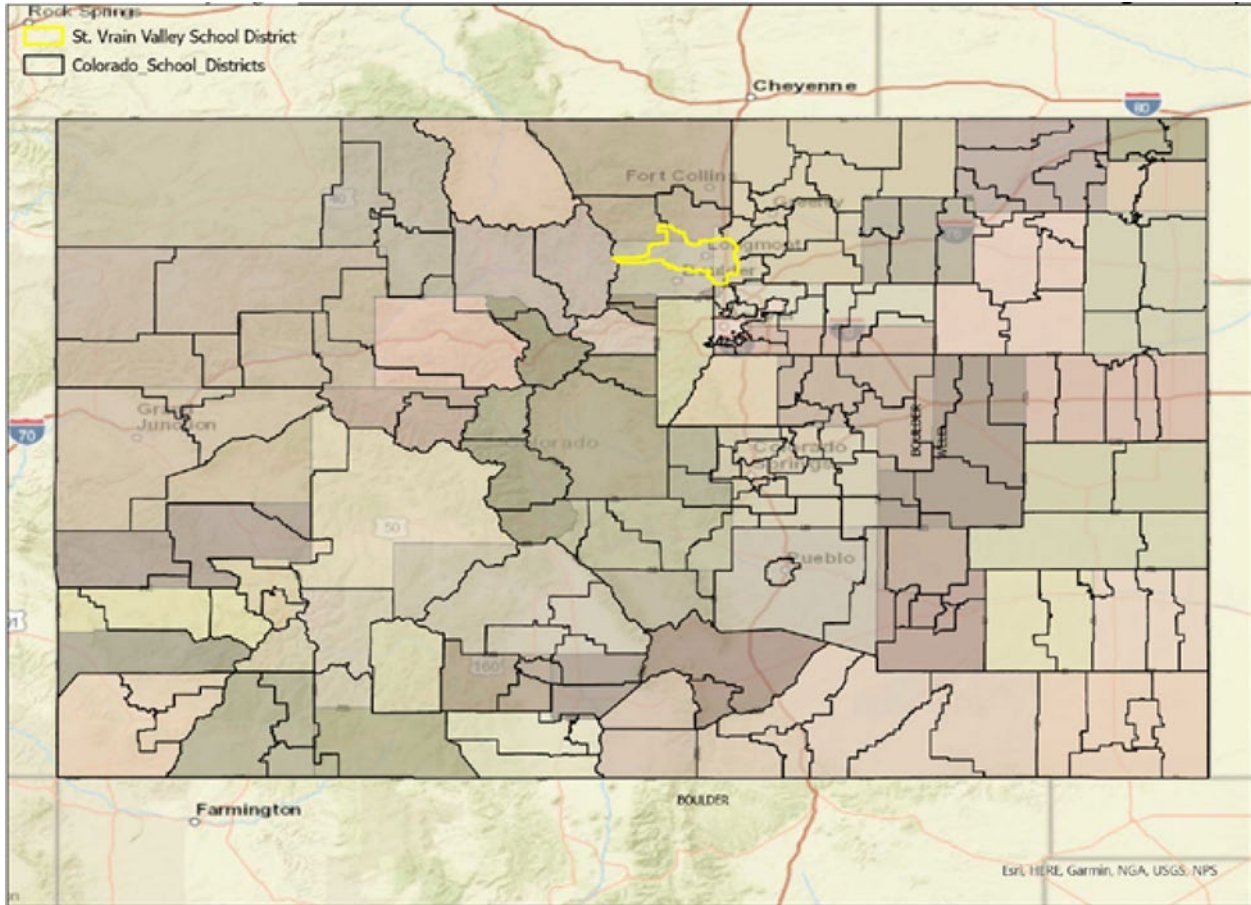

Statement of Purpose

The leadership structure of the St. Vrain Valley School District represents a systems approach to student, teacher and staff achievement and well-being. This structure is designed to maximize organizational performance and optimize resources dedicated to the alignment of standards, curriculum, instruction and assessment, as well as technology, professional development, communications, and partnerships with business and industry, post-secondary institutions, parents and other stakeholders.

DEMOGRAPHIC INFORMATION

The St. Vrain Valley School District is located approximately 30 miles north of Denver, and is spread out over more than 400 square miles in parts of Boulder, Broomfield, Larimer, and Weld Counties.

CENSUS DATA

	Boulder	Broomfield	Larimer	Weld

DISTRICT SCHOOLS AND PROGRAMS

The St. Vrain Valley School District serves 32,026 PreK-12 students in 55 schools for the 2026-27 school year. These schools include 1 preschool center, 25 elementary schools, 4 K-8 schools, 8 middle schools, 1 middle/senior high school, 7 traditional high schools, 1 alternative high school, 2 online schools, 1 homeschool enrichment school, and 5 charter schools.

The District also has 3 centers that serve students in specialized programs while the students are enrolled in their neighborhood schools. These are the Career Elevation and Technology Center, the Innovation Center, and Main Street School.

In addition to PreK-12 education, St. Vrain Valley School District provides many opportunities for students to obtain post-secondary education through programs such as Pathways in Technology Early College High School (P-TECH), Teacher Recruitment Education and Preparation (TREP), other Concurrent Enrollment at area colleges and universities, AP Classes, and Industry Certifications.

St. Vrain Valley Schools Innovation Center

DISTRICT SCHOOLS AND PROGRAMS

Erie High Feeder

The Erie High feeder system covers the Town of Erie and its surrounding area, mostly in Weld County.

- Black Rock Elementary
- Erie Elementary
- Grand View Elementary
- Highlands Elementary
- Red Hawk Elementary
- Soaring Heights PK-8
- Erie Middle
- Erie High

Frederick High Feeder

The Frederick High feeder system covers the towns of Firestone, Frederick, and Dacono in Weld County and their surrounding areas.

- SPARK! Discovery Preschool
- Centennial Elementary
- Legacy Elementary
- Prairie Ridge Elementary
- Thunder Valley K-8
- Coal Ridge Middle
- Frederick High

Longmont High Feeder

The Longmont High feeder system covers Northwest Longmont, the Town of Hygiene and areas to the north of the towns, all in Boulder County.

- Central Elementary
- Hygiene Elementary
- Mountain View Elementary
- Northridge Elementary
- Sanborn Elementary
- Longs Peak Middle
- Westview Middle
- Longmont High

Lyons Middle/Senior High Feeder

The Lyons Middle/Senior High feeder system covers the Town of Lyons and the surrounding area in Boulder County and extends to the north into Larimer County.

- Lyons Elementary
- Lyons Middle/Senior High

Mead High Feeder

The Mead High feeder system covers the Town of Mead and the surrounding area in Weld County as well as the northeast corner of Boulder County.

- Mead Elementary
- Big Sky PK-8
- Mead High
- Mead Middle

DISTRICT SCHOOLS AND PROGRAMS

Niwot High Feeder

The Niwot High feeder system covers south Longmont, the town of Niwot and the surrounding area primarily in Boulder County.

- Burlington Elementary
- Indian Peaks Elementary
- Niwot Elementary
- Sunset Middle
- Niwot High

Silver Creek High Feeder

The Silver Creek High feeder system covers southwest Longmont, and the area to the southwest of town in Boulder County.

- Blue Mountain Elementary
- Eagle Crest Elementary
- Longmont Estates Elementary
- Altona Middle
- Silver Creek High

Skyline High Feeder

The Skyline High feeder system generally covers Eastern Longmont in Boulder County.

- Alpine Elementary
- Columbine Elementary
- Fall River Elementary
- Rocky Mountain Elementary
- Timberline PK-8 School
- Trail Ridge Middle
- Skyline High

Charter Schools

Charter schools are semi-autonomous schools operating under the oversight of the District.

- Aspen Ridge Preparatory School
- Firestone Charter Academy
- Flagstaff Academy
- St. Vrain Community Montessori School
- Twin Peaks Classical Academy

Apex Homeschool Program

The Apex Homeschool Program provides classes to supplement and support the education that students receive from their parents at home. The program is located in Longmont and serves K-12 students from throughout the District.

New Meridian High School

New Meridian High School, an alternative High School that serves high school students from throughout the District, is located at our Global Acceleration Campus. New Meridian is a small structured school that allows students to earn credits on a quarterly basis and provides additional opportunities for developing the social skills needed to positively contribute to the community.

DISTRICT SCHOOLS AND PROGRAMS

St. Vrain Virtual High School

St. Vrain Virtual High School serves 9-12 graders throughout the District. The program allows students the flexibility of completing their coursework at the time of their choice while having the benefit of local teachers in classrooms located at the Global Acceleration Campus to provide additional support and assistance.

St. Vrain LaunchED Virtual Academy

LaunchED was established in 2020 as an online instructional program to provide an option for students with health concerns or other special circumstances that prevented them from attending school in person. In FY22, LaunchED became a fully-accredited online school available to all District students from grades K-12. In FY24, the school became a multi-district school, allowing students from across the state to enroll. The online classes are taught by St. Vrain Valley School District staff, utilizing District curriculum and incorporating a variety of high-quality academic and curricular resources. LaunchED classes align with Colorado Academic Standards and District expectations for each grade level K-12.

Innovation Center

The Innovation Center of St. Vrain Valley Schools is a distinctive PreK-12 program designed to provide students with experiential learning opportunities that go beyond the traditional classroom setting developing students into future leaders, innovators, and changemakers. Summer programs enhance student engagement through innovative, hands-on STEAM activities that incorporate human-centered design thinking. These programs are led by experienced Innovation Center educators and student leaders, offering a dynamic and collaborative learning environment. The Innovation Center offers advanced coursework in emerging fields and opportunities for professional certifications such as:

- Aeronautics
 - Artificial Intelligence
 - Bioscience
 - Cybersecurity
 - Entrepreneurship
 - IC Studios
 - Information & Communications Technology
 - Pathways to Teaching (P-TEACH)
 - Robotics
 - STEM Education
 - Virtual & Digital Design
- * Apple Certification - Device Specific
 - * Certified Entry-Level Python Programmer
 - * CompTIA A+ Software Certification
 - * CompTIA A+ Hardware Certification
 - * TriCaster Operator Certification
 - * UAS Pilot Certification

DISTRICT SCHOOLS AND PROGRAMS

Main Street School

Main Street School in Longmont provides Special Education services to K-12 students from schools throughout the District in a collaborative learning community dedicated to fostering self-advocacy and independence. Enrollment and placement at Main Street School is done through the special education Individualized Education Program (IEP) process.

Life Skills Alternative Cooperative Education Services at Main Street School provides post-secondary transition services for students 18-21 years of age who have completed their high school credits and have socially graduated. The program focuses on building independent living skills, career/employment skills, community-based education and functional academics.

Career Elevation and Technology Center

The Career Elevation and Technology Center (CETC) is one of twelve Career and Technical Education centers in the state of Colorado. It is located in Longmont at our Global Acceleration Campus, but serves high school students from throughout the District. CETC offers classes that provide real-world, hands-on experiences in pathways that are high-wage, high-growth, high-demand and with a post-secondary trajectory. CETC offers the following programs.

- Advanced Manufacturing
- Agricultural Sciences
- Automotive Technology
- Health Sciences
- Interactive Media Technology
- Pre-Law
- Prostart and Culinary Arts
- Welding and Fabrication Technology
- Work Based Learning Experiences

*** Carbon Valley Academy will close after FY26. Big Sky PK-8 will serve Preschool through 6th grade in FY27

High School Boundaries

BUDGET INFORMATION

Fund Accounting

The District uses funds to report its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a balanced set of accounts. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate “fund types”.

Governmental funds are used to account for the District's general activities, including the collection and disbursement of earmarked funds (special revenue funds), the acquisition or construction of major capital facilities (capital projects funds), and the servicing of long-term debt (debt service funds). The District's major governmental funds are the General Fund (including the CPP and Risk Management Funds as sub-funds), Bond Redemption Fund, and the Building Fund:

- General Fund – The General Fund is the District's general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include local property taxes, specific ownership taxes, and State of Colorado equalization funding, as determined by the School Finance Act, as amended. Expenditures include all costs associated with the daily operation of the schools, except for programs funded by grants from federal and state governments, school construction, certain capital outlay expenditures, debt service, food service operations, extracurricular athletic and other pupil activities, and insurance transactions.
- Colorado Preschool Program Fund – Prior to FY23, monies allocated to this fund from the General Fund were used to pay the costs of providing preschool services directly to qualified at-risk children enrolled in the Colorado Preschool Program (CPP). This fund is no longer utilized beginning in FY25, as the CPP program was replaced by Colorado's new Universal Preschool Program, which is categorized as state revenue in the General Fund.
- Risk Management Fund – This fund is also a sub-fund of the General Fund. Monies allocated to this fund from the General Fund are used to account for the payment of loss or damage to the property of the District, workers' compensation, property and liability claims, insurance premiums, and the payment of related administration expenses.
- Debt Service Fund – The District has one debt service fund, the Bond Redemption Fund. This fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs. The fund's primary revenue source is local property taxes levied specifically for debt service.
- Capital Projects Funds – The District has two capital projects funds, the Building Fund and the Capital Reserve Capital Projects Fund. The Building Fund accounts for the proceeds of bond sales and expenditures for capital outlay for land, buildings, improvements of grounds, construction of buildings, additions or remodeling of buildings or initial, additional and replacement equipment. The Capital Reserve Capital Projects Fund is used to account for revenue allocations from the General Fund and other revenues allocated to or earned in this fund, and the expenditures for the ongoing capital needs of the District, such as acquisition of land, building additions and improvements, and major equipment purchases.

The other “non-major” governmental funds of the District are Special Revenue Funds which account for earmarked revenue sources, grants, charges for services, and tuition. The “non-major” Special Revenue Funds consist of the Nutrition Services Fund, Governmental Designated-Purpose Grants Fund, Community Education Fund, Fair Contributions Fund, and Student Activity Fund.

Proprietary funds focus on the determination of the changes in net assets, financial position, and cash flows and are classified as either enterprise or internal service. The District's only internal service fund is the Self Insurance Fund which accounts for the financial transactions related to the District's self-funded dental and medical insurance plans.

Fiduciary funds focus on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District does not have any fiduciary funds.

Classification of Revenue and Expenditures

Budget statement presentation classifies revenues into five primary categories:

- Local Revenues - Resources derived from within the immediate vicinity, typically the community within the District boundaries. This category primarily comprises property taxes, investment income, and charges for services. Other local revenues include the sale of capital assets, investment income, urban renewal authority agreements, tuition for preschool students beyond State funding, services charged to Charter Schools, indirect costs billed to grants, and revenue from cell phone tower leases classified under rental of facilities.
- State Revenues - Resources allocated to the District from the State of Colorado's budget, the largest of which is the state equalization payment via the School Finance Act. Other sources include state categorical payments.
- Federal Revenues - Resources derived from the US federal budget, though typically administered by the Colorado Department of Education. Federal revenues include COVID relief funds through FY25, Medicaid reimbursements, federal bond rebates, and a variety of federal grants.
- Revenue Allocations - Reallocation of certain revenues from the general fund to other funds per board policy or state statute. This includes allocations to the Risk Management Fund, the Capital Reserve Fund, and the Colorado Preschool Program Fund through FY23. In the General Fund, revenue allocations are presented as negative numbers, reflecting a reduction of revenue.
- Other Sources - Other revenue sources typically reflect accounting entries to record the inception of lease purchase and other software agreements.

Budget statement presentation may classify expenditures in one of two ways:

- By Object - Classifications represent the nature or type of expenditure, such as Salaries, Benefits, Services, Supplies, Capital, and Other.
- By Activity - Classifications represent the subject, program, or activity for which the expenditure was made. Examples include Direct Instruction, Classroom and Building Support, and Central Administration.

Governing Regulations and Policies

Public school budgeting is regulated and controlled by statutes and by requirements of the State Board of Education that prescribe the form of district budgets in order to ensure uniformity throughout the state. Key statutes are outlined below.

- 22-40-102 Tax Revenues - Board of Education must certify to Board of County Commissioners the separate amounts necessary to be raised by taxes for the school district's general, bond redemption, transportation and special building funds.
- 22-44-105 Mandatory Contents - The budget shall be presented in the standard budget report format established by the state Board of Education and be consistent from year to year.

- 22-44-106 Contingency Reserve - Operating Reserve - Board of Education may provide for an operating reserve in the general fund, which shall not exceed fifteen percent of the amount budgeted to the general fund for the current fiscal year.
- 22-44-107 Appropriation Resolution - Board of Education of each school district shall adopt an appropriation resolution at the time it adopts the budget.
- 22-44-108 Budget Preparation - Board of Education shall each year cause to be prepared a proposed budget for the ensuing fiscal year, which shall be submitted at least thirty days prior to the beginning of the next fiscal year.
- 22-44-110 Budget - Consideration - Adoption - Any person paying school taxes in the school district is entitled to attend the meeting of the Board of Education at which the proposed budget for the district will be considered. At such meeting, the board shall review the functions and objects of the proposed budget.
- 22-44-304 Financial Reporting - Within 60 days of adoption, the adopted budget shall be placed on file in the district's financial services department and posted on the district website in accordance with the Public School Financial Transparency Act.
- 29-1-103 Lease-Purchase Agreement Disclosures - Shall include the total amount to be expended for payment obligations under all lease-purchase agreements involving real property, maximum payment liability involving real property over the entire terms of agreement, total amount to be expended other than real property and maximum payment liability other than those involving real property over the entire terms of agreements.

Board of Education Policies

In addition to the state requirements, the District's Board of Education Policies require the following in Section DB:

- The budget shall annually include a per pupil dollar amount, determined by the Board of Education, to be allocated for instructional supplies and materials.
- The Board of Education assigns to the superintendent or designee the responsibility of accumulating and maintaining a general fund operating reserve in excess of the emergency reserve to serve as a "rainy day" fund and will be used only for unexpected loss of revenue or an extraordinary expenditure. If any part of the contingency reserve is used in the fiscal year to cover unexpected loss of revenue or an extraordinary expenditure, funds will be reallocated to restore the year-end balance before any other budget allocations in the subsequent fiscal year.
- The budget shall annually include a per pupil dollar amount, determined by the Board of Education, to be allocated to the Capital Reserve and Risk Management Funds. In an effort to bolster the General Fund support for programs and teacher/staff compensation, the Board of Education approved a one-time exception to policy and the District reduced the allocation to the Capital Reserve Fund by \$7.0 million in FY27.
- In circumstances where an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly unassigned fund balance.

BUDGET DEVELOPMENT PROCESS

State of Colorado

The District's budget development timeline is guided by the State of Colorado's budget timeline and statutory requirements.

The State releases the Governor's budget proposal by November 1 which gives preliminary state budget information for the following school year. The School Finance Act, which determines state funding for school districts, is usually passed by the end of April. Funding is typically revised the following January after actual pupil counts and assessed valuations are finalized.

Within that context, the State requires that the District's proposed budget be presented to the Board of Education at least 30 days prior to the beginning of the fiscal year (July 1) and that the District publish a public notice within 10 days of submitting the proposed budget to the Board. A public hearing must be held after the publishing of the public notice and prior to the adoption of the budget. The budget must be adopted by the Board prior to the beginning of the fiscal year.

The State allows for districts to amend their budgets at any time prior to January 31. After January 31, a supplemental budget may be authorized only if additional funds become available to the District.

Budget Goals and Priorities

The District develops a five-year budget plan that projects the future financial viability of the District, and achievement of the District's priorities. The plan considers a specific set of operating assumptions, future revenue, including tax and non-tax revenue, and future increases in operating expenditures. Using this five-year outlook, the Board reviews the overview and accountability needs and works with the Superintendent to set the District focus, goals, and priorities for the budget development.

Discretionary (Non-Personnel) Budgets

Each school and department is allocated a non-personnel budget that is developed with the Finance Department's budget staff each February.

Funds are initially allocated to schools based on projected student enrollment numbers and are updated mid-year once actual student counts are finalized.

The allocations to departments use the prior year budget as a starting point, and additional funds may be requested and approved. Requests for additional funds, along with justification for the requests, are submitted to Cabinet in March and approved in April in alignment with the District's goals and priorities.

Personnel

Because salaries and benefits account for approximately 86% of the General Fund budget, the allocation of staffing resources is a critical part of the budgeting process. The process is facilitated using staffing plans that are created by the Finance Department and distributed to each school and department by the Human Resources Department in early February. The staffing plans allocate the number of positions that each school and department may utilize in the upcoming year. They are completed collaboratively by Human Resources staff, central administrative staff, and school/department staff. In March, the staffing plans are reconciled to the accounting software and controls are put into place to prevent hiring of staff beyond what is approved through the budgeting process.

The number of positions on each school staffing plan is determined by formulas and ratios using criteria such as projected enrollment numbers that are provided by the Planning Department, type of school (elementary, K-8, middle, or high school), and risk factors such as eligibility for Title I funding and number of students that qualify for free or reduced meals.

The Finance Department, Human Resources, and Area Assistant Superintendents collaborate each January to finalize the criteria that is used. Additional positions are allocated to the schools by individual departments for specialized needs such as Special Education and Preschool programming. Schools may also request additional ongoing or one-year only positions to accommodate focus areas or specialized needs of the individual schools. The requests are typically submitted to the Superintendent's Cabinet in March and are approved in April based on District goals and priorities. In August and September, Human Resources works with Principals and Area Assistant Superintendents to review the staffing needs of the schools based on actual enrollment and reallocate staffing and/or request new positions at Cabinet if needed.

Department staffing plans are created by using the previous year's positions as a starting point. Additional positions funded by grants may also be added. Grant-funded positions must be reauthorized each year after verifying that funds will be available. Departments may also request additional staffing by submitting requests to Cabinet.

The District's compensation package is typically approved by the Board of Education in April or May following negotiations with the St. Vrain Valley Education Association. The compensation information is combined with the approved staffing allocations and available benefits enrollment information to establish the budget for salary and benefits. Updated insurance enrollment information is provided to the Budget Office in October for inclusion in the amended budget.

Capital Improvement Planning

The District's long-range capital planning is developed through the process of reacting to the needs identified and prioritized through asset performance assessments. Capital Improvement planning is typically broken into two categories: Capital Renewal and Capital Improvement.

- Capital Renewal would be categorized as evaluating building systems and assets based on a life cycle analysis. This analysis considers industry standard life expectancy, system performance determined by the level of effort to maintain the expected operation, ability to service equipment in the future, etc., for which funding could be appropriated for years in advance.
- Capital Improvement projects are borne from more specific projects that are created out of the short-term need more than the Capital Renewal projects. These are created through facility modification requests, education programmatic needs, and unforeseen asset repairs or replacements. Schools and departments submit project and equipment funding requests. Requests are evaluated and recommended by the Capital Reserve Committee and submitted to the Board of Education for final approval.

Budget Monitoring

The District monitors its budget to actual activity throughout the year in multiple ways:

- The accounting and reporting team prepare and publish periodic financial reports highlighting budget to actual progress for each fund. This is done on a quarterly basis for the first half of the year, and monthly thereafter. These reports are then summarized in a dashboard format and presented to the District's Finance and Audit Committee, and then to the Board of Education in a subsequent study session.
- Staff within each school and department utilize the District's Enterprise Resource Planning (ERP) system to review real time transactions, as well as reconcile to secondary tracking tools to monitor their individual budgets.
- Budget staff completes a budget performance report analysis and provides summary data, observations, and variance analysis to the appropriate budget manager.

BUDGET DEVELOPMENT TIMELINE

Month	Activity
December	Long-term budget projections are updated by the Budget Office.
January	The Board of Education reviews the long-term budget overview and accountability needs and sets District focus, goals, and priorities for the next fiscal year. The Finance Department, Human Resources, and Area Assistant Superintendents collaborate to develop the formulas and ratios that will be used in the following fiscal year to allocate staffing resources to individual schools based on criteria such as enrollment count and number of students that qualify for free and reduced meals.
February	The Planning Department provides the District with enrollment projections and staffing plans for each of the schools are developed using the established staffing guidelines. Individual schools and departments submit discretionary budget requests for the upcoming fiscal year.
March	Requests for additional staffing and discretionary budget needs are presented to the Superintendent's Cabinet and approved based on goals and priorities of the District.
April/May	The compensation plan for the next budget year is developed, negotiated, and finalized.
May	The proposed budget is presented to the Board of Education and posted to the District website. The public comment period begins, and extends through the public hearing in June.
June	The District conducts a public hearing on the proposed budget. The proposed budget is approved by the Board of Education.
Aug/Sept	Staffing adjustments are made to accommodate actual enrollment and needs of schools and information is provided to the Budget Office for inclusion in the amended budget.
October	Updated health insurance election information is presented to the Finance Department.
December	Mill levies are certified by the Board of Education for the following tax year. Budget amendments are prepared.
January	The amended budget is reviewed by Cabinet. The amended budget is approved by the Board of Education.

FINANCIAL SECTION
ADOPTED BUDGET
2026 – 2027 FISCAL YEAR

REVENUE AND EXPENDITURES – ALL FUNDS

Major Revenue Sources

Local Revenues: Revenue from local sources is the amount of money produced within the boundaries of the school district and available to the district for its use. Money collected by another governmental unit as an agent of the school district is recorded as revenue from local sources.

State Revenues: Revenue from state sources is revenue from funds collected by the state government and distributed to school districts.

Federal Revenues: Revenue from federal sources is revenue from funds collected by the federal government and distributed to school districts. In determining whether revenue is federal revenue, it is unimportant whether the funds are distributed directly to the school from the federal government or through some intervening agency (pass-through entity) such as the Colorado Department of Education or other state agency.

Other Revenues: This classification includes “other sources” which constitute fund revenues in a strict fund accounting context but are not considered revenues to the school district. This category also includes proceeds from long-term debt.

Major Expenditure Categories

Salaries: Amounts paid for personnel services to both permanent and temporary school district employees, including individuals substituting for those in permanent positions.

Employee Benefits: Amounts paid by the school district on behalf of employees; generally, these amounts are not included in the gross salary but are in addition to that amount. Such payments are fringe benefit payments and, while not paid directly to employees, never-the-less, are part of the cost of personal services.

Purchased Services: Services which by their nature can be performed only by persons of firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided.

Supplies and Materials: Amounts paid for items that are consumed, worn out or deteriorated through use; or items that lose their identity through fabrication or incorporation into different or more complex units or substances. Items that do not contribute to a district’s capital assets, as evaluated by the district’s capital asset policy, may be coded as a supply item.

Capital Outlay: Expenditures for acquiring capital assets, including land or existing buildings, improvements of grounds, initial equipment, additional equipment, and replacement equipment.

Other Expenditures: Amounts paid for goods and services not otherwise classified above.

Charter Schools: Tracks the outflow of resources to the five autonomous charter schools for which the District is the authorizer.

Fund Balance Categories

Nonspendable: Balances include deposits, inventories, and prepaid items.

Restricted for TABOR (Taxpayer's Bill of Rights): 3% required reserves per the Colorado Constitution.

Restricted for Federal Contract: Amounts of reserves specifically allocated for the Federal Medicaid reimbursement program.

Committed for Contingencies: 2% Board of Education reserve stipulated by Board Policy.

Committed for BOE Allocations: Allocations to other funds, such as Risk Management and Capital Reserve Funds.

Assigned for Subsequent Year Expenditures: Amounts set aside to ensure funding for specific future obligations, such as a subsequent year budget spend-down, employment contract, or carryover.

Assigned for Mill Levy Override: Reserves specifically related to the 2008 and 2012 MLO revenues and expenditures.

Unassigned: Any remaining fund balance not belonging to a category above.

Explanation of Fund Balance

The District routinely experiences budget outperformance, or a positive budget-to-actual variance due to conservative revenue and expenditure budgeting practices. Most notably, the budget includes salary and benefit expenditures for all approved positions, which does not account for natural savings from vacancies and turnover.

Total fund balance is expected to fluctuate the next 4 fiscal years due to the District's voter approved 2024 bond projects. As the bond moves through its seven to eight year timeline the District plans to sell additional bonds in fiscal years 2027 and 2029 which will cause additional fluctuations in fund balance. Fund balance for the General Fund is expected to decrease in the next two forecasted fiscal years and then stabilize, which again does not account for the budget outperformance described above. The District monitors and manages fund balance to ensure future uncertainties are addressed without significant interruptions to core educational services. For specific details regarding projections please refer to each fund's specific budget page.

SUMMARY OF BUDGET REPORTS

All Funds

The following table contains actual and projected revenues and expenditures for all District funds combined. This includes District operating funds as well as funds designated exclusively for debt management or capital construction.

Consolidated Operating Funds - Expenditures

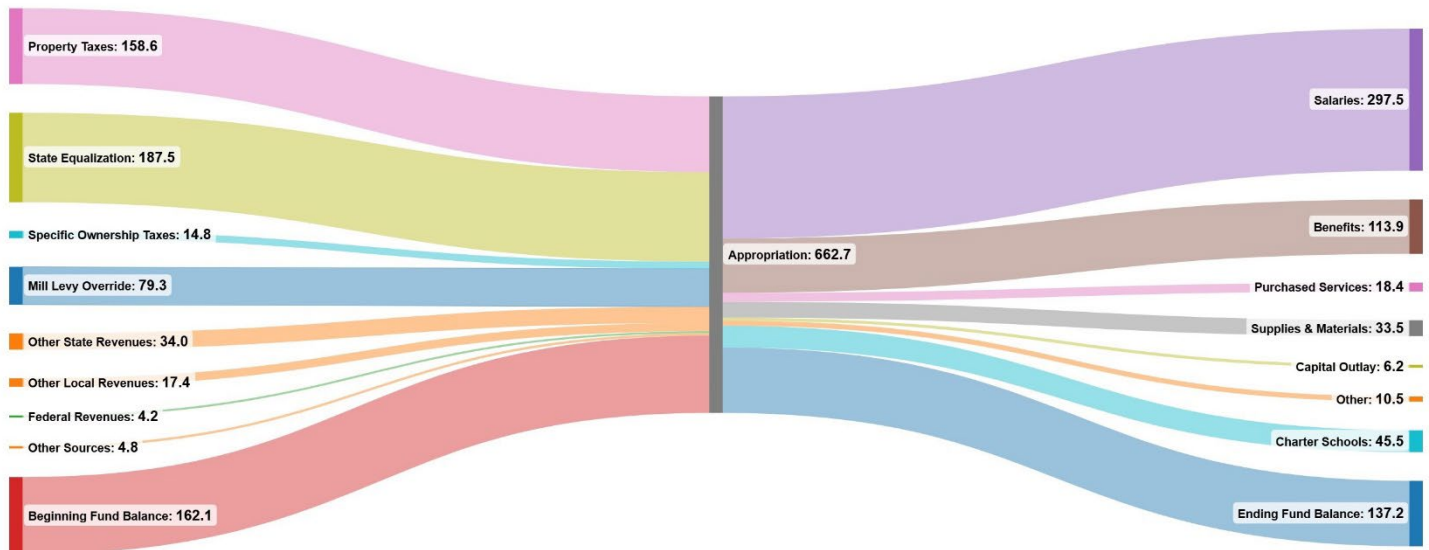

BLANK PAGE

FUND 10 – GENERAL FUND

The General Fund is a governmental fund which includes the revenues and expenditures for the general operations of the District. Expenditures for school and departmental operations are primarily budgeted and accounted for in the General Fund. Total budgeted revenues are \$500.6 million offset by an expenditure budget of \$525.4 million. This equates to a spend down of fund balance in the amount of \$24.9 million in FY27. Beginning fund balance of \$162.1 million is also appropriated in the General Fund. Additional details regarding General Fund activity are explained in the following pages.

Fund 10 Appropriation

(\$ in Millions)

GENERAL FUND BUDGET FACTORS – REVENUE

Total Program

A new school finance formula in the State of Colorado was enacted beginning with the 2026 fiscal year. To lessen the financial impact of the changing formula on the State, the new school funding legislation will be phased in over a seven-year period. For FY27, districts will receive the amount calculated under the expiring Public School Finance Act of 1994 formula plus 30 percent of the difference between the expiring formula and the new formula.

Under the expiring Public School Finance Act of 1994 districts receive a base per pupil amount that is adjusted based on a district's cost of living and size. This adjusted per pupil amount is then multiplied by a district's funded pupil count. Districts then receive additional funding for at-risk, English Language Learners (ELL), online, and extended high school students. The formula structure is multiplicative, meaning that district adjustments made to the base for cost of living and size factors flow through to the amount of funding that districts receive for other factors like at-risk and ELL.

The new formula is additive, meaning that each factor is calculated directly using the base per pupil amount and then funding for each factor is additively summed to calculate a district Total Program Funding (TPF). The new formula structure is split between three categories, Foundation Funding, Student Factors, and District Factors.

Foundation Funding

Foundation funding is associated with the statewide base per pupil amount that is constitutionally required to increase each year by at least the rate of inflation. For FY27, this amount is \$8,900.40. The base per pupil is then multiplied by the funded pupil count, excluding online and extended high school students.

Student Factors

At-Risk Funding: Calculated by multiplying the 0.25 at-risk factor by the base per pupil amount and the number of at-risk students.

ELL Funding: ELL funding is calculated by multiplying the 0.25 ELL factor by the base per pupil amount and the number of district ELL students.

Special Education Funding: The special education funding is calculated by multiplying the 0.25 special education factor by the base per pupil amount and the number of students who have identified disabilities.

Online/Extended High School Funding: Online and extended high school students, excluding students in the Teacher Recruitment Education and Preparation (TREP) program, are funded at \$10,732.00. The TREP program is funded at \$7,104 per student in FY27. The TREP program will then be phased out of the school finance formula after the 2028 fiscal year.

District Factors

Cost of Living Funding: The cost of living factor is established by comparing each district's cost of living to the lowest cost of living district and recalculated every two years. The cost of living factor for St. Vrain is 0.201 and is multiplied by the base per pupil amount and the funded pupil count, excluding online and extended high school students.

Size Funding: Only districts with a funded pupil count less than 6,500 may receive size factor funding. Based on its size, St. Vrain Valley School District will not receive size factor funding.

Locale Funding: Locale factors are determined by the National Center for Educational Statistics. These designations are based on the geography and population of the school district. Districts with rural or town locale designations receive funding

with weighted differences based on distant, remote, or fringe designations. St. Vrain Valley School District does not fall into one of these locale designations and does not receive locale funding.

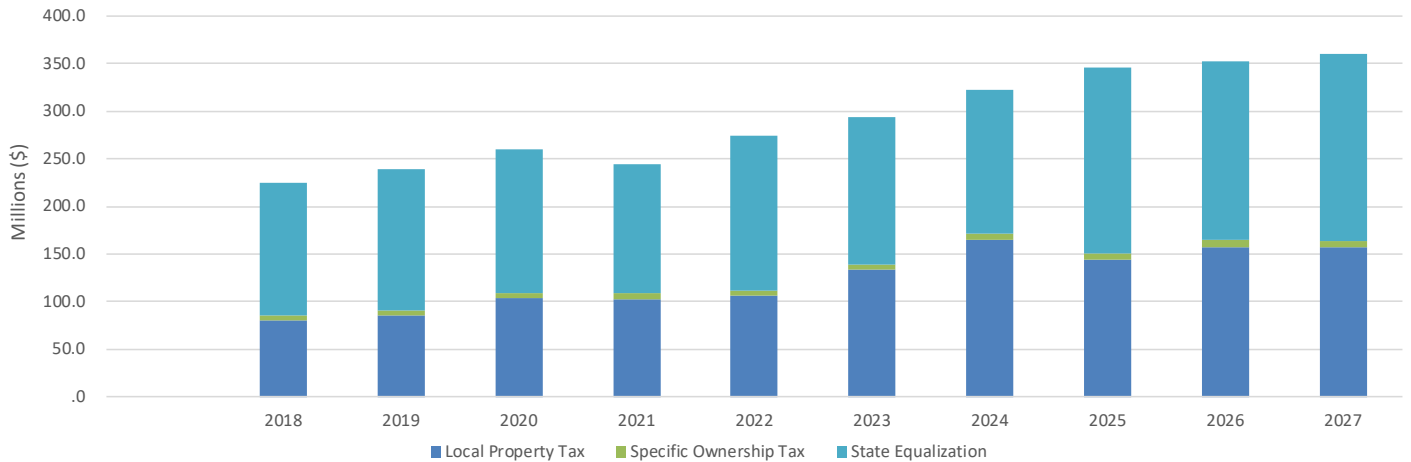

Funding Elements

Total Program is funded by three sources: Local Property Tax, Specific Ownership Tax (i.e., vehicle registrations), and the remainder is provided to the District by the State of Colorado through what is called "State Equalization." State Equalization for the District will increase by \$6.9 million, as local property tax remains flat, and a slight decrease of \$0.3 million to specific ownership tax share. Additional information regarding property taxes can be found in the "Tax Base and Rate Trends" section of this document. With changes to Colorado's finance formula the District's portion of TPF for FY27 will increase by \$6.6 million (1.9%) compared to FY26.

Below is a historical breakdown of Total Program Funding for St. Vrain Valley Schools.

Per Pupil Revenue	\$ 7,491.69	\$ 7,916.73	\$ 8,289.15	\$ 7,948.38	\$ 8,819.72	\$ 9,399.89	\$ 10,372.51	\$ 11,125.42	\$ 11,428.29	\$ 11,790.00

* Total Program Funding is calculated by the Colorado Department of Education (CDE). Actual amounts budgeted and received by the District vary due to actual vs. expected tax collections, CDE rescissions or supplemental allocations from the State Equalization payment, and rounding.

Funded Pupil Count

Funded Pupil Count (FPC) is the count of students funded through TPF. FPC can be different from the total number of students enrolled in the district. Most notably, enrolled preschool students are not included in FPC, as preschool is funded outside of the TPF formula.

In addition, the calculation of FPC allows districts to take an average of recent enrollment, as a mechanism to prevent funding cliffs and mitigate fluctuations in TPF. Previously under the Public School Finance Act of 1994, districts were permitted to use an enrollment average of up to 5 years to calculate FPC. Current methodology now uses the greater of the current year enrollment or the average of the current year and the two prior years, which may reduce the total funding available for some districts.

For FY27 the District's funded pupil count is projected to decrease by approximately 387 to 30,492.50 a reduction of 1.25% compared to FY26.

Property Taxes

Property tax revenues consist of property taxes levied as part of the local share of Total Program Funding, Mill Levy Overrides, and abatements. Total property tax revenue is budgeted at \$237.9 million, broken down as follows.

Each school district is required to impose a property tax levy to finance its local share of TPF, the mill rate is set by the state and is currently 27.000 mills for the District. With a projected assessed valuation of approximately \$5.8 billion the TPF local share is \$157.5 million, which is flat from the FY26 Amended Budget.

Mill levy overrides are additional revenues that have been approved by district voters. The voters of the District passed mill levy overrides in November of 2008 and 2012, both of which provide additional funds for a variety of items as defined within the ballot questions. Assessed valuation is projected to remain steady which will cause the mill levy override revenue to remain flat at \$79.3 million in FY27.

Abatements are budgeted to be \$1.1 million in FY27. Mill levies attributed to debt service are not recorded in the General Fund.

Specific Ownership Taxes

Specific ownership taxes (SOT) are collected by counties when vehicles are purchased and registered. A portion of the tax collected must be used as a source of Total Program Funding as required by the Public School Finance Act. Overall SOT is projected at \$14.8 million, of which \$6.8 million will be used towards TPF.

State Categorical Funding

In addition to the Total Program Funding provided by the Public School Finance Act, Colorado school districts may receive funding to pay for specific programs designed to serve particular groups of students or particular student needs. Such programs often are referred to as "categorical" programs.

English Language Proficiency Act (ELPA): ELPA allocations are provided to support the implementation of evidence-based English language development for all eligible K-12 English Language Learners (ELL). The goal of the program is to increase the English language development and academic performance of eligible ELL students. Funding is based on identified ELL students during student October count. Revenue of \$1.0 million is expected in FY27.

Special Education Funding: The Exceptional Children's Educational Act (ECEA) outlines the District's responsibilities for providing special education programs for children with disabilities. ECEA recognizes the need to provide educational opportunities to all children, and the benefits of providing a continuum of services in the least restrictive environment. Total projected funding of \$14.2 million is planned for FY27.

Transportation: The Public School Transportation Fund provides an allocation to school districts to help defray the cost of student transportation from home to school, from school to home, and from school to school. Estimated revenue of \$2.8 million is projected for FY27.

Career and Technical Education: Funding for career and technical education is provided through the State Board for Community Colleges and Occupational Education. Funding is to cover the cost of instructional personnel, supplies, equipment, and instructional services provided by cooperating agencies or institutions. Projected revenue for FY27 is estimated at \$1.2 million.

Universal Preschool Colorado (UPK): In November of 2022, HB22-1295 established the Colorado Universal Preschool Program to offer voluntary, high-quality universal preschool to every Colorado child in the year before kindergarten. Funding is provided through the Colorado Department of Early Childhood (CDEC) for up to 15 hours per week for eligible students. The District enrolls approximately 1,239 preschool students and is projected to receive \$5.8 million in revenue in FY27.

State On-Behalf Payments to PERA: As a component of SB18-200, the state is required to make a direct on-behalf payment of \$225.0 million to Colorado PERA each year. The payment is allocated based on the proportionate amount of annual payroll to the School District Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. The District's portion of this contribution is equal to \$6.5 million in FY27.

Federal Funding

Federal funds primarily come from Build America Bond (BABS) rebates and Medicaid services reimbursement revenue. BABS provides alternate ways for the federal government to subsidize local and state governmental borrowing by making a direct payment to bond issuers for 35% of the interest cost. The Medicaid reimbursement program allows school districts to seek partial reimbursement for qualifying health-related services to students. Medicaid funds are required to be used for additional or enhanced health-related services, increase the District's outreach to uninsured students and families, or provide assistance with access to health care.

As a result of sunsetting pandemic relief funding, federal revenues have returned to normal levels, in line with pre-pandemic inflows.

Other Local Revenue Support

Other local revenues include the sale of capital assets, investment income, urban renewal authority agreements, tuition for preschool students beyond State funding, services charged to Charter Schools, indirect costs billed to grants, and revenue from cell phone tower leases classified under rental of facilities.

Other Sources

Lease proceeds are a non-cash accounting entry required to recognize activity per Governmental Accounting Standards Board, GASB 87, as it pertains to lease purchase agreements. The offset to this revenue transaction is on the expense side to make this a net neutral transaction overall.

Resource Allocations

District policy requires direct allocation of funding to the Capital Reserve Fund and Risk Management Fund in the amount of at least \$537 per student, which is approximately \$14.7 million for FY27. In an effort to bolster support for programs and teacher/staff compensation in the General Fund, however, the allocation to the Capital Reserve Fund from the General Fund was reduced by \$7.0 million in FY27 per a one-time board-approved policy exception. This reduced the total resource allocation to \$7.7 million, which includes \$5.7 million to the Risk Management Fund and \$2.0 million to the Capital Reserve Fund

GENERAL FUND BUDGET FACTORS – EXPENDITURES

General Fund expenditures are budgeted at \$525,441,960, which is a nominal increase of \$237,040 from the FY26 Amended Budget. To maximize available funding available for salary increases, and to minimize the use of existing reserves, the District proactively identified \$5.2 million in departmental cost saving measures for FY27. These efficiencies were achieved by focusing on centralized costs, to minimize potential impacts to direct programming at our schools.

Salary and Benefits

Salaries and benefits represent approximately 86% of total budgeted expenditures and have increased by \$13,999,817 from the FY26 Amended Budget. Salary expenditures include a step increase and an \$800 base salary increase on the certified salary schedule. Funding for educational advancement is also included in the certified salary budget. Classified, professional technical, and most administrator staff received a 2.32% salary increase. Those administrators at the cabinet level received 1.5% increase. Benefits expenses reflect proportional increases in PERA and Medicare costs, along with higher health and dental insurance premiums. These adjustments apply across all funds that pay salaries and benefits.

School Allocations

Schools are allocated a supplies and materials budget based on student enrollment as well as additional allocations based on population. Schools receive the following per pupil allocation for discretionary purposes; Elementary - \$62, K-8 - \$64, Middle Schools - \$65, and High Schools - \$75. Schools with preschool programs are allocated \$122 per preschool student enrolled in their program, as well as each elementary school receives \$1,000 per kindergarten classroom. Staffing is allocated to schools based on student-enrollment, focus programs, and individual school needs. Schools are not allowed to carry over unexpended discretionary budgets from year-to-year unless identified for a specific purpose and explicitly authorized.

Instructional Supplies and Materials

District policy requires the budget includes \$339 per student for instructional supplies, books, field trips, and capital outlay. The required minimum instructional supplies and materials budget is \$9,286,736 for FY27. This is based on 27,394.5 FPC (excluding charter schools).

Mill Levy Override

District voters passed mill levy overrides in November of 2008 and 2012, both of which provide additional funds for a variety of items as defined within the respective ballot questions. As required, accounting for the MLO funds is incorporated within the General Fund totals.

	Actual 2022-2023	Actual 2023-2024	Actual 2024-2025	Projected Actual 2025-2026	Adopted Budget 2026-2027

Charter Schools

The District provides charter schools with 100% of per pupil revenue (PPR) based on their funded pupil count (FPC). The FY27 PPR of \$11,806.03 is adjusted to exclude multi-year online and extended high school students from the Public School Finance Act. The District also shares MLO revenues in proportion to their respective funded pupil counts.

Due to Carbon Valley Academy closing operations after the 2026 fiscal year, the total charter school FPC is projected to decrease by 144. The projected FY27 FPC for charter schools is 3,098, resulting in a total budgeted charter school allocation of \$45,465,858 as follows:

	Aspen Ridge Preparatory School	Firestone Charter Academy	Flagstaff Academy	St. Vrain Community Montessori School	Twin Peaks Classical Academy	Total
Funded Pupil Count	629.0	568.0	682.0	268.0	951.0	3,098.0

GENERAL FUND BUDGET FACTORS – RESERVES

The St. Vrain Valley School District maintains reserves across several categories to ensure financial stability and preparedness. These categories include Nonspendable, TABOR, Federal Contracts, Contingencies, Board of Education Allocations, Subsequent Year Expenditures, Mill Levy Override, and Unassigned reserves.

Nonspendable reserves, which cover deposits, inventories, and prepaid items, are projected to be \$3,748,123 in the FY27 budget.

In accordance with Article X, Section 20 of the Colorado Constitution, the District must hold a 3% TABOR reserve, which is estimated at \$17,323,000 in FY27.

Federal contract reserves, allocated specifically for the federal Medicaid reimbursement program, are expected to decrease by \$1,087,910 to \$269,959 in FY27 due to increased salary and benefits costs within the program and the estimated reduction in revenue. Efforts are being made to reduce costs funded by Medicaid as fund balance and revenues decrease.

The Contingency Reserve, a "rainy day" fund, is set at 2% of the operating fund's expenditures, amounting to \$11,549,000 in FY27. Should this reserve be utilized during the fiscal year for unexpected losses or extraordinary expenditures, it will be replenished before any other budget allocations in the following year.

The Board of Education Allocations committed in the FY27 budget is \$14,829,005. These funds are estimated to be allocated to the Risk Management and Capital Reserve Funds in FY28.

Funds designated for Subsequent Year Expenditures, estimated at \$18,670,165 for FY27, are reserved to cover specific future obligations, such as budget spend-downs, employment contracts, and identified carryover.

Reserves related to the 2008 and 2012 Mill Levy Override revenues and expenditures are estimated to be \$39,216,907 in FY27.

Any remaining fund balance after meeting these obligations is classified as Unassigned.

Total fund balance per the FY27 Adopted Budget is expected to decrease \$24,879,592 from \$162,116,179 at June 30, 2026 to \$137,236,587 at June 30, 2027. However, the District routinely experiences budget outperformance, or a positive budget-to-actual variance due to conservative revenue and expenditure budgeting practices. Most notably, the budget includes salary and benefit expenditures for all approved FTE, which does not account for natural savings from vacancies and turnover.

Multi-Year Projections

Beyond FY27, revenue projections are driven primarily by estimated TPF, as defined by the School Finance Act (SFA). However, the State may continue to adjust the funding formula, making future predictions less certain. Revenue projections will be impacted primarily by inflation and student enrollment, in addition to a gradual increase related to recent revisions to the school finance formula. PPR is expected to increase by inflation of 2.5% to 2.9% per year from FY28 to FY30, based on the most recent estimates published by the State of Colorado. District enrollment is expected to remain stable or see modest increases over the same period.

Assessed property values have a direct impact on the District's mill levy override revenue. Oil and gas property values have stabilized from the spike in 2023. In a non-reassessment year residential and commercial property values are expected to remain stable and therefore the District will expect flat revenue for mill levy revenue. This is also governed by recent property tax legislation. In August 2024, the Colorado legislation passed Senate Bill 24B-1001 in a special session, which split

assessment rates between school districts and non-school districts. The residential rate is set at 7.05% or 6.95% if statewide growth is greater than 5.00%.

Increases in expenditures assume salary adjustments for a step and step equivalent, health insurance premium adjustments of approximately 10.0% per calendar year, a consistent PERA contribution rate of 21.4%, staffing adjustments associated with enrollment and programmatic changes, and contractual increases in annual software license renewals.

Compensation increases are determined annually, based on available resources and through negotiations with the St. Vrain Valley Education Association. To ensure ongoing personnel costs align with ongoing revenues, projected compensation increases approximate the inflation estimates discussed above.

Total fund balance is expected to decrease in the next two forecasted fiscal years and then stabilize, which again does not account for the budget outperformance described above. FY27 projected ending fund balance remains over 26% of budgeted expenditures, which is a result of conservative budget practices and strong financial stewardship. The District monitors and manages fund balance to ensure future uncertainties are addressed without significant interruptions to core educational services.

FUND 18 – RISK MANAGEMENT FUND

The Risk Management Fund is a sub-fund of the General Fund and is used to account for the payment of loss or damage to the property of the District, liability claims, workers' compensation claims, insurance premiums, safety and security, environmental compliance, and related administrative expenses. Its primary source of revenue is an allocation from the General Fund based on Board Policy. Other revenues include investment income and claims reimbursements.

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District plans to provide for or restore the economic damages of those losses through risk retention and risk transfer.

The District is a member of two public entity risk sharing pools. The District's share of each pool varies based on exposures, the contribution paid to each pool, the District's claims experience, each pool's claims experience, and each pool's surplus or dividend policy. The District may be assessed to fund any pool deficit.

The District is a member of the Colorado School Districts Self Insurance Pool for property and liability insurance. The District has insurance deductibles of \$50,000 (property and general liability), and \$1,000 (vehicle liability) per claim. The District is also a member of the Northern Colorado School Districts Workers' Compensation Self Insurance Pool. The other current pool members are Park School District (Estes Park) and Weld RE 4 District (Windsor). The District's deductible is \$50,000 per claim for the year ending June 30, 2027.

Projections include an intentional spend down of fund balance due to positive claims experience and conservative budgeting practices. Additional allocations from the General Fund would be budgeted in future years if necessary.

FUND 19 – COLORADO PRESCHOOL PROGRAM FUND

The Colorado Preschool Program (CPP) Fund was used to account for revenue allocations from the General Fund used for the CPP which was a State funded program for preschool children the year before kindergarten. Children who qualified for the CPP may have had a variety of at-risk factors. Funding for the program used the per pupil revenue calculated within the Public School Finance Act (PSFA), less the Board-required Risk Management and Capital Reserve per-student allocation.

With the implementation of Universal Preschool in Colorado for the 2023-24 school year, the CPP Fund will not be utilized beginning in FY25. All funds remaining within the CPP fund were spent in FY24.

FUND 21 – NUTRITION SERVICES FUND

The Nutrition Services Fund accounts for the meal service program within the District. The program operates with a financially self-supporting budget. The program purchases food and supplies for preparation and service of meals according to Federal Child Nutrition Program guidelines. The Nutrition Services leadership team assesses the needs of the department and its customers, sets measurable goals, and maintains a philosophy of customer service in dealing with students, parents, school staff, and the community.

In November of 2022, Colorado voters passed an initiative to fund the Healthy School Meals for All (HSMA) program that has provided free meals to all students beginning in FY24. Under the program, the State reimburses districts based on the federal free reimbursement rate per meal served, less the HSMA amount received from Federal Child Nutrition Programs. Due to funding issues Colorado voters passed ballot measures LL and MM in November of 2025, which will provide full and permanent funding for the state's HSMA program by increasing taxes on high-income earners and by allowing the state to retain excess revenues collected. Beginning in FY27, Proposition MM will reinstate the grant initiatives delayed in Proposition FF:

- Local food purchasing grant: Nutrition Services will receive up to \$0.25 multiplied by the number of lunches that qualified as an eligible meal that the participating school food authority served to students in the preceding school year. The District shall use the money received to purchase only Colorado grown, raised, or processed products and some value-added processed products. In addition, a school food authority may use up to ten percent of the money received to pay allowable costs.
- School meals food preparation and service employees - wage increase or stipend: Nutrition Services will receive up to \$0.12 multiplied by the number of school lunches that qualify as eligible meals that the District provided in the previous budget year, so long as the District uses one hundred percent of the amount received to increase wages or provide stipends for individuals whom the District employs to directly prepare and serve food for school meals.

Starting in October of 2023, the United States Department of Agriculture (USDA) changed the eligibility requirements for CEP (Community Eligibility Provision) to allow a greater number of schools to qualify; and the Colorado Department of Education (CDE) approved mid-year enrollment into CEP to maximize federal funding. CEP provides Federal funding for all meals in qualifying schools based on the percentage of students participating in programs such as Supplemental Nutrition Assistance Program (SNAP), Medicaid (free and reduced only), and Temporary Assistance for Needy Families (TANF). The HSMA program requires that all qualifying schools and districts enroll in CEP. As of August 1, 2025, 41 schools in the District have been enrolled in the program. These schools will be enrolled through at least FY28, unless changes to site eligibility are altered at the Federal level.

Enrollment in the CEP program has resulted in increased Federal Revenues due to higher reimbursements, however this has correspondingly decreased state revenues. The Nutrition Services department remains focused on a balanced budget and has reduced labor and food costs in 2027 and beyond. Thanks to the 2024 Bond program the District recently renovated and expanded its warehouse. This allows for direct to warehouse deliveries, reducing third-party delivery fees and overall food costs. The department will also look for additional revenue streams in fiscal year 2027.

FUND 22 – GOVERNMENTAL DESIGNATED-PURPOSE GRANTS FUND

The Governmental Designated-Purpose Grants Fund is used to account for restricted State and Federal Grants.

Consolidated Grants

Title I: Part A: Improving Academic Achievement of the Disadvantaged

This funding focuses on promoting school-wide reform in at-risk schools and ensuring student access to scientifically based instructional strategies and challenging academic content. This program is the largest Every Student Succeeds Act (ESSA) program and allocates its resources based on the poverty rates of students.

Title II: Part A: Teachers and Principals Training and Recruiting

This grant helps to ensure high quality teachers will be available for all students. The grant provides for teacher training and recruitment of highly qualified teachers, paraeducators, and principals capable of ensuring that all children achieve high standards.

Title III: Language Instruction for Limited English Proficient and Immigrant Students

This grant helps children with limited English skills develop high levels of academic attainment in English and meet the state academic achievement standards set for each grade level. Title III also addresses the need for family literacy, providing English language instruction for parents and preschool age children.

Title IV: Part A: Student Support and Academic Enrichment

This grant is intended to improve students' academic achievement by increasing the capacity of State educational agencies (SEAs), local educational agencies (LEAs), and local communities to provide all students with access to a well-rounded education; improve school conditions for student learning; and improve the use of technology to improve the academic achievement and digital literacy of all students.

Federal Grants

IDEA - Part B

The purposes of the Individuals with Disabilities Education Act (IDEA) are to ensure that all children with disabilities have available to them free appropriate public education which emphasizes special education and related services designed to meet their unique needs; ensure the rights of children with disabilities are protected; assist local educational agencies to provide education to all children with disabilities; and assess and ensure the effectiveness of efforts to educate children with disabilities.

IDEA - Preschool

Provides grants to local education agencies to assist in providing special education and related services to children with disabilities ages three to five.

Carl Perkins - Career and Technical Education

This grant develops the vocational skills of secondary students by promoting integrated career, academic, and technical instruction.

State Grants

School to Work Alliance Program (SWAP)

The purpose of SWAP is to provide career development and employment related services to youth with disabilities through partnership with the Colorado Department of Education, the Division of Vocational Rehabilitation, and school districts. SWAP is designed to enhance transition services mandated through IDEA.

Opportunity Now Colorado

St. Vrain Valley Schools, in partnership with Workforce Boulder, Boulder Chamber, Adams 12 Five Star Schools, Weld RE-3J School District, Estes Park School District, University of Colorado Denver, Colorado Education Initiative, Mogli, Salesforce, Cisco, Elevation Solutions, PTA Plastics, McKesson, and Eplexity, will invest in career pathways through the state of Colorado's Opportunity Now grant. Using grant funds, St. Vrain and its partners will significantly accelerate industry credential and postsecondary attainment in the state's most in-demand careers. Partnerships between education, industry, and workforce development centers will ensure a smooth transition between high school, college, and careers. Ultimately, the programs funded by the proposal will produce hundreds of highly trained advanced manufacturing and information technology professionals, as well as early childhood, special education, elementary, middle, and high school teachers. Opportunity Now will reach the end of its funding cycle after FY26, causing a \$2.5 million reduction in revenue for FY27.

Expelled and At-Risk Student Services (EARSS)

The purpose of the EARSS grant is to assist in providing educational and support services to expelled students, students at risk of suspension and expulsion, students at risk of habitual truancy as defined by unexcused absences, and students at risk or are chronically absent.

Colorado Academic Accelerator

The Colorado Academic Accelerator grant program seeks to establish or expand community learning centers that will accelerate student learning by providing academic support and enrichment as well as family engagement activities in Out of School Time programs focused on STEM, particularly math and science. Out of School Time programs are regularly attended by students and their families when school is not in session. In FY27 Colorado Academic Accelerator will reach the end of its funding cycle. It is a competitive grant that may provide additional funding in the future.

FUND 23 – STUDENT ACTIVITY FUND

The Student Activity Fund is a special revenue fund that records financial transactions related to school sponsored pupil intrascholastic and interscholastic athletic and other related activities. Although these activities are generally supported by revenues from pupils and gate receipts, they may be supplemented by fundraisers and gifts. Accounting is maintained for each District school and department, and separate activities within each location.

BLANK PAGE

FUND 27 – COMMUNITY EDUCATION FUND

The Community Education Fund is a special revenue fund and is used to record financial transactions from the following activities:

Community Schools - Funds are generated through tuition and fees. The Community Schools program includes before/after school child care, wrap-around programs for part-time preschool students, and after-school, summer, or non-school-day enrichment programs. The program primarily serves elementary school age students. The Community Schools program is scheduled to spend down its excess fund balance over the next three fiscal years. Revenues and expenses will be closely monitored throughout this period to ensure that an appropriate fund balance is maintained.

Facility Use - Funds are generated through rental and use fees of District facilities. Expenditures include costs for custodial services, repairs and maintenance, administration, and supplies and materials.

Local Grants and Awards - The District receives many grants and awards from local non-profits and corporations, usually for specific purposes. Each grant and award are tracked individually.

Summer School - Funds are generated through tuition and donations. Expenditures include instructor salaries, clerical support, supplies/materials, tuition assistance, and utility/custodial support. This program serves students in both elementary and secondary grades.

FUND 29 – FAIR CONTRIBUTIONS FUND

The Fair Contributions Fund is a special revenue fund and was first established November 15, 1995 in accordance with the Intergovernmental Agreement Concerning Fair Contributions for Public School Sites between the City of Longmont and the St. Vrain Valley School District in order to collect monies for the acquisition, development, or expansion of public school sites necessary due to the impacts created by residential subdivisions. Since that date, additional intergovernmental agreements have been set up with the Towns of Mead, Frederick, Firestone, Erie, Lyons, Dacono, and the City and County of Broomfield. Additional fair contribution fees for public school sites are collected from Boulder County, Larimer County, and from individual developers in Weld County.

Fees are assessed according to the type of dwelling: single family, duplex/triplex, condo/townhouse, multi-family, or mobile home. The fees are collected for use within the senior high school feeder attendance area boundaries, which serve the individual dwelling units.

FUND 31 – BOND REDEMPTION FUND

The Bond Redemption Fund is a debt service fund used to account for property taxes levied and investment income earned, and to provide for payment of general long-term debt principal retirement, semi-annual interest, and related fees. The District's long-term debt, in the form of general obligation bonds will total \$484,195,000 as of June 30, 2026.

Over the last decade, the District has received taxpayer support as follows:

- In November 2016, District voters authorized \$260 million of general obligation debt to address the District's capital needs due to growth. In December of 2016, the District issued \$200 million of the \$260 million that was authorized, and issued the remaining \$60 million in October of 2018.
- In November 2024, District voters authorized \$740 million of additional general obligation debt to ensure the District's continued commitment to academic excellence, accountability, safety, and providing the education that today's students will need for tomorrow's jobs and careers.

On December 4, 2024, the District successfully sold \$342,960,000 of general obligation bonds, which represented the first installment of bonds issued by the District as approved in the November 2024 election. The District's bonds were rated Aa1 by Moody's and AA+ by Standard and Poor's, reflecting the District's strong credit profile. Given the market's demand for such high-quality bonds, the sale generated a premium of approximately \$34,562,000, reflecting a net interest cost of 3.43% and resulting in approximately \$375.9 million of funds available for capital projects. These positive financing results are a benefit to the District and its constituents, generating additional project funds at a lower cost to taxpayers.

With sufficient resources available in its Bond Redemption Fund, the District has been able to fund the early repayment of bonds. Recent examples include:

- On October 31, 2022, the District fully redeemed the remaining \$16.4 million of its Series 2012 bonds early. This reduced the longevity of the 2012 bond debt by more than 2 years, resulting in an interest savings of approximately \$847,000.
- On December 22, 2023, the District defeased the 2033-2036 maturities of its Series 2016C bonds. The four maturities represented \$73,175,000 in principal. On December 15, 2026, the defeased bonds will become callable and the four maturities will be redeemed without penalty. This action reduced the longevity of the outstanding 2016C debt by 4 years, reducing the total interest paid by approximately \$39.7 million, representing a savings of approximately \$36,800,000.
- On November 14, 2024, the District defeased the remaining \$37,465,000 of its Series 2014A bonds. On December 16, 2024, the bonds became callable and were redeemed without penalty. The defeasance generated an interest savings of approximately \$2,261,000.
- On December 16, 2024, the District defeased the 2025-2029 maturities of its Series 2016C bonds. The five maturities represented \$43,825,000 in principal. On December 15, 2026, the defeased bonds will become callable and the five maturities will be redeemed without penalty. This action reduced the total interest paid by approximately \$7.7 million, representing a savings of approximately \$5,379,000.

Fiscal year 2026-27 budgeted expenditures of the Bond Redemption Fund are \$110,863,067, which includes debt service principal, interest, and related fees. In addition, the District expects to leverage an estimated \$17.0 million of existing resources in the Bond Redemption Fund to fund the early repayment of certain Series 2016 Bonds, which will represent additional interest savings. Property taxes represent the primary revenue source for the Bond Redemption Fund, though investment income is expected to contribute approximately \$2.6 million for fiscal year 2026-27.

The property tax levy for principal and interest on bonds was Board-approved at 16.728 mills for property tax year 2025 (to be collected in 2026), which is approximately 29.0% of the District's total tax levy of 57.717 mills. Maintaining the current scheduled repayment of long-term debt is not expected to have a significant financial impact on current or future operations of the District. The legal debt limit of 20% of the District's 2025 assessed valuation of \$5.83 billion is \$1.17 billion. This exceeds the net amount of the District's bonds payable as of December 31, 2025 by approximately \$682.2 million.

GENERAL OBLIGATION BONDS

<u>Bond Series</u>	<u>Issue Date</u>	<u>Issue Amount</u>	<u>Interest %¹</u>	<u>Principal Due</u>	<u>Premium²</u>	<u>Balance As of June 30, 2026</u>
Building 2010B ³	May 2010	\$76,410,000	5.34% - 5.79%	Dec 15, 2026 - 2033	\$0	\$76,410,000
Refunding 2016A	February 2016	115,155,000	2.5% - 5.0%	Dec 15 through 2033	12,871,395	91,965,000
Building 2016C ⁴	December 2016	200,000,000	3.0% - 3.5%	Dec 15 through 2032	23,640,238	39,300,000
Building 2024	December 2024	342,960,000	5.0%	Dec 15 through 2039	34,561,644	<u>276,520,000</u>
						\$484,195,000

- 1) All interest is payable on June 15 and December 15.
- 2) All premiums are being amortized over the life of the bonds.
- 3) The \$76,410,000 of bonds issued on May of 2010 were part of the Direct Pay Build America Bond Program.
- 4) The 2016C 2033-2036 maturities were defeased on December 22, 2023. The 2025-2029 maturities were defeased on December 16, 2024.

FUND 41 – BUILDING FUND

The Building Fund is a capital project fund used to budget and account for the proceeds of bond sales and expenditures for capital outlay for land, buildings, improvements of grounds, construction of buildings, additions or remodeling of buildings, or the initial purchase and replacement of certain equipment.

In November 2016, voters authorized the District to issue \$260.0 million in general obligation bonds to fund capital needs.

- The District issued \$200.0 million of bonds in December 2016, and the additional \$60.3 million of bonds in October 2018.
- Bond proceeds from the 2016 election have funded significant instructional and safety improvements at every school in the District, including larger additions to Blue Mountain Elementary School, Eagle Crest Elementary School, Erie High School, Frederick High School, Silver Creek High School, and Mead High School; construction of Soaring Heights PK-8, Grand View Elementary School, Highlands Elementary School, and Mead Elementary School; and a new Innovation Center in Longmont to serve the entire St. Vrain student population.

In November 2024, voters authorized the District to issue an additional \$739.8 million in general obligation bonds to fund capital needs.

- The District issued \$343.0 million of bonds in December 2024, and anticipates issuing additional bonds of approximately \$265.0 million in fiscal year 2026-27.
- Bond proceeds from the 2024 election will fund capital projects for approximately 7 years beginning in FY25. Project highlights include the construction of five new schools in areas of high growth, including an Erie high school, a Career and Technical Education (CTE) center on the new high school campus, an Erie elementary school, a Longmont Montessori school, and Big Sky PK-8 school in Mead. For further Bond project details refer to the Informational Section in this document.

FUND 43 – CAPITAL RESERVE FUND

The Capital Reserve Fund is a capital projects fund that is used for ongoing capital needs of the District, such as acquisition of land, building additions and improvements, and major equipment purchases. It is primarily funded through a transfer of resources from the General Fund, per Board of Education Policy DB. In an effort to bolster support for programs and teacher/staff compensation in the General Fund, however, this allocation to the Capital Reserve Fund from the General Fund was reduced by \$7.0 million in FY27 per an one-time board-approved policy exception.

The District's long-range capital planning is developed by the needs identified and prioritized through asset performance assessments. Capital Improvement planning is typically broken down into two categories: Capital Renewal and Capital Improvement.

- Capital Renewal evaluates building systems and assets based on a life cycle analysis. This analysis considers industry standard life expectancy, system performance determined by the level of effort to maintain the expected operation, ability to service equipment into the future, etc., for which funding could be appropriated for years in advance.
- Capital Improvement projects are borne from more specific projects that are created out of the short-term need more than the Capital Renewal projects. These are created through facility modification requests, education programmatic needs, and unforeseen asset repairs or replacements. Schools and departments submit project and equipment funding requests. Requests are evaluated and recommended by the Capital Reserve Committee and submitted to the Board of Education for final approval.

Some of the major capital projects for the budget year include: asphalt replacement and repair, door access control/improvements, fire alarm enhancements, classroom lighting controls, sewer replacement/replacing water lines, auditorium rigging/stage improvements, door hardware upgrades, and network resiliency.

While individual projects vary in terms of additional cost and savings, the overall capital project budget is on track. Some examples of projects where we see savings are those that bid at more advantageous timing for contractors and their resources. Projects that see additional costs are those in which material costs are more volatile or are experiencing longer lead times (e.g., replacement generators, new electrical panels, transportation vehicles and equipment/furniture).

FUND 65 – SELF INSURANCE FUND

The Self Insurance Fund is an internal service fund used to account for the District's self-funded insurance plan. Revenues for the fund include employee and District contributions towards health and dental claims, and rebates or incentives from healthcare provider contracts. Expenditures include claims, salary, benefits, purchased services, and supplies related to managing the self-insurance health and dental plans and complying with the Health Insurance Portability and Accountability Act (HIPAA).

INFORMATIONAL SECTION
ADOPTED BUDGET
2026 – 2027 FISCAL YEAR

TAX BASE AND RATE TRENDS

Approximately 48.0% of the District's General Fund revenue comes from local property taxes (including mill levy overrides), amounting to \$237.8 million. Property tax revenues of \$97.5 million also fund the repayment of the District's general obligation debt through the Bond Redemption Fund.

The amount of property tax owed by a taxpayer of the District is based on the property's assessed valuation, multiplied by the District's mill levy, and then divided by one thousand (one mill is equal to one dollar per \$1,000 of assessed value). Assessed valuation and mill levy rates are certified annually each December, and collected the following year. The District's current mill levy is 57.717, which was certified in December of 2025 for collection in 2026. The assessed value of a property is determined by multiplying its value (as determined by the County Assessor) by the assessment rate, which varies depending on the type of property. See below for an example on how the 2025 property tax owed in 2026 is calculated:

Actual Value	X	Assessment Rate	X	Mill Levy	/	1,000	=	Annual Property Tax
\$450,000		7.05%		57.717		1,000		\$1,831.07

The District's total mill levy actually comprises four different levies. The General Fund Levy (27.000 mills) is the portion of Total Program Revenue that is set by the State, the Abatement Levy (0.399 mills) provides funding for previously assessed taxes that were abated or refunded by the county and were not received by the District in a prior tax year, the Mill Levy Override (13.590 mills) represents voter-approved levies for operating expenses related to specific purposes and finally, the Debt Service Levy (16.728 mills) provides funding to pay the principal and interest payments on voter approved general obligation bonds used to fund capital construction projects such as new schools and improvements to existing schools.

The following tables show the history of St. Vrain's property tax mill levies, net assessed values and tax collections.

SUMMARY OF PROPERTY TAX LEVIES CALENDAR YEARS 2016 – 2025

Levy Year	General Fund Levy	Abatement Levy	Mill Levy Override	General Operating Subtotal	Debt Service Levy	Total Property Tax Levies
2025	27.000	0.399	13.590	40.989	16.728	57.717

GENERAL OBLIGATION BONDS

Over the last decade, the District has received taxpayer support as follows:

- In November 2016, District voters authorized \$260 million of general obligation debt to address the District’s capital needs due to growth. In December of 2016, the District issued \$200 million of the \$260 million that was authorized, and issued the remaining \$60 million in October of 2018.
- In November 2024, District voters authorized \$740 million of additional general obligation debt to ensure the District’s continued commitment to academic excellence, accountability, safety, and providing the education that today’s students will need for tomorrow’s jobs and careers. The District successfully sold \$342,960,000 of those general obligation bonds on December 4, 2024, which represented the first installment of bonds issued as approved in the November 2024 election.

With sufficient resources available in the Bond Redemption Fund, the District has been able to fund the early repayment of bonds in the table below. Since 2010 the District has been able to save taxpayers almost \$90 million as a result of refinancing and early payments.

Total	\$ 38,074,000	\$ 46,877,000	\$ 5,000,000	\$ 89,951,000

Amounts are stated in future value savings

Projects Funded by Bonds

Bond proceeds from the 2024 election will fund capital projects for approximately 7 years beginning in fiscal year 2024-25. Project highlights include the construction of five new schools in areas of high growth, including an Erie High school, a Career and Technical Education (CTE) center on the new high school campus, an Erie elementary school, a Longmont Montessori school, and Big Sky PK-8 school in Mead. The following table indicates investments within the St. Vrain Valley School District to be spent with bond funding.

STUDENT ENROLLMENT

Each year, public school districts across Colorado take part in the Student October Count data submission to the Colorado Department of Education (CDE). This process, required by state statute, collects student-level data including details about funding eligibility as outlined in the Public School Finance Act (as amended). The October Count is based on a single-day enrollment count, during which districts report all students who are enrolled and attending classes. The enrollment numbers included are based on actual or projected October Count for the year indicated.

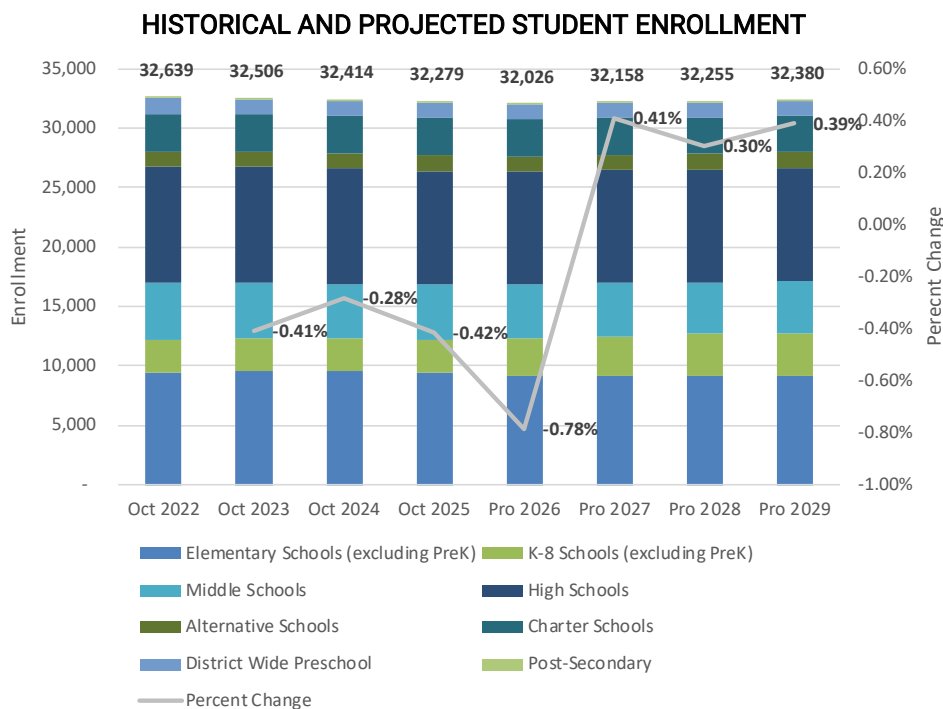

The Planning Department in St. Vrain Valley School District uses a combination of a cohort survival model and a student resident model to create student enrollment projections. This blended approach incorporates historical enrollment trends, historical open enrollment trends, housing development data, and birth rates for a more holistic understanding of future student populations.

The cohort survival model forms the foundation of this methodology by tracking how student groups move through the school system. Historical retention rates between grades are analyzed to identify patterns in student progression and open enrollment trends within each high school feeder system. These retention patterns are then projected forward in numerous models to estimate future enrollments at each grade level and school.

The student resident model adds another perspective by accounting for the effects of residential development on enrollment. Housing growth, as reflected by building permits, is analyzed based on the type of residential units (e.g., single-family versus multi-family). By examining residential permit data alongside the pace and type of new construction, the model account for how changes in the community's housing landscape may impact future student numbers.

Additionally, birth data enhances the projections by providing insights into future kindergarten enrollment. Tracking birth trends within the District, alongside housing sales and new construction, offers a predictive look at future student population.

Together, these models create a dynamic approach to enrollment forecasting. By combining historical trends, demographic changes, and residential growth, this hybrid method provides a more accurate and adaptive way to anticipate enrollment changes and support effective resource planning in a rapidly growing region.

PERFORMANCE MEASURES

On-Time (4-Year) Graduation Rate

The on-time graduation rate is the number of students receiving a regular diploma within four years of entering ninth grade divided by the number of students in the Anticipated Year of Graduation (AYG) cohort. The AYG cohort is determined by assigning an unchanging anticipated year of graduation to students when they enter ninth grade. The AYG cohort is adjusted by the number of students transferring in and out of the District.

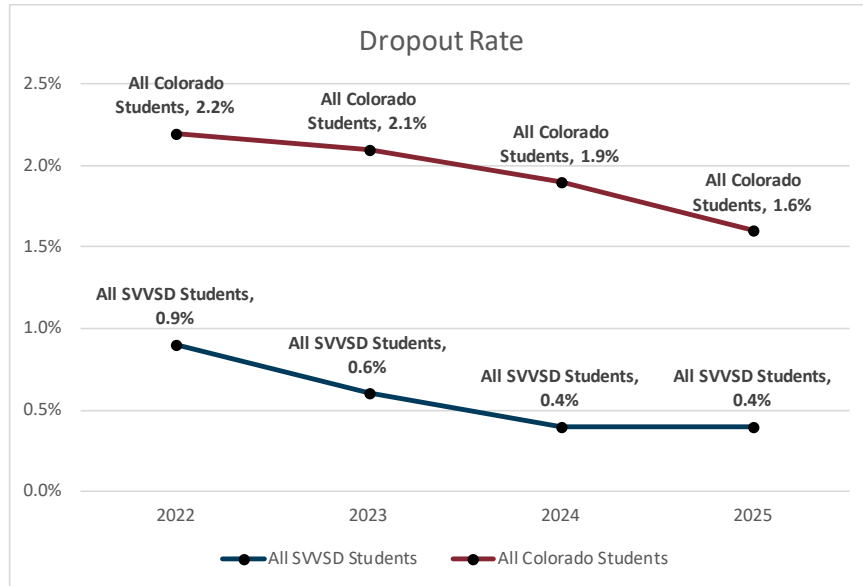

In 2025, St. Vrain Valley Schools achieved the highest on-time graduation rates in the District's history, at 96.8%. This is the highest graduation rate of any district in the Denver Metro area, and one of the highest of any district in Colorado with more than 300 graduates.

The foundation of the District's success begins the moment students enter preschool or kindergarten and is built throughout their 12-14 years in St. Vrain. Everything across our system impacts our graduation rates, which is why this is such an important indicator of the quality of our teachers, students, schools, and system. This includes the quality and care of our school buildings and learning environments, access to nutritious meals and safe transportation, strong school leadership, outstanding classroom teachers and paraprofessional support, caring front office and health staff, robust technology and aligned curricular resources, engaging experiences in and outside of the classroom, and so much more.

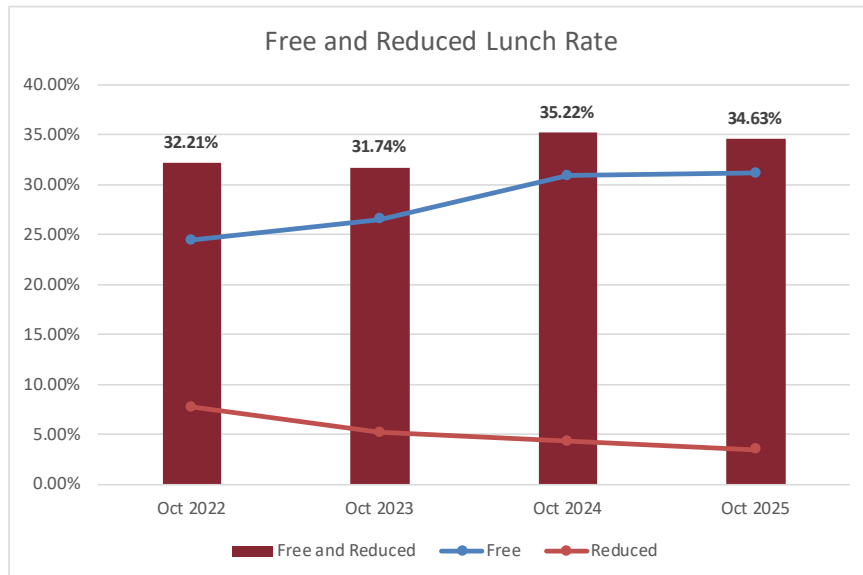

Dropout Rate

The dropout rate is calculated by taking the number of dropouts during the school year and dividing by the number of 7th-12th grade students that were part of the same membership base at any time during the school year. The District's dropout rate of 0.4% for all students is the lowest in the Denver Metro area in 2025.

Free and Reduced Lunch Rate

The free and reduced lunch rate is the percentage of students (excluding preschool) that qualify for free or reduced meals under the National School Lunch Act. The free and reduced rate is used in determining a portion of the District's funding from the State, as well as many grants.

Standardized Test Scores

The State of Colorado uses Colorado Measures of Academic Success (CMAS) tests to measure third through eighth grade students’ mastery of the standards and the complex thinking and other critical skills that students need to be successful in school and in life. For high school level students, Preliminary Scholastic Assessment Test (PSAT) and Scholastic Assessment Test (SAT) tests are administered to all students and used to measure academic growth and achievement.

Assessment	Possible Score Range	SVVSD Mean Score			Colorado Mean Score		
		2023	2024	2025	2023	2024	2025
CMAS Elementary School English Language Arts	650-850	744.2	747.0	746.7	741.1	742.3	734.0

GLOSSARY OF TERMS

Abatements

A complete or partial cancellation of a levy imposed by a government. Abatements usually apply to tax levies, special assessments, and service charges.

Account

A record used to summarize all increases and decreases in a particular asset or any other type of asset, liability, fund equity, revenue, or expenditure.

Advanced Placement

A program created by the College Board which offers college-level classes and examinations to high school students. Colleges and universities may grant course credit to students who obtain high scores on the examinations.

Appropriation

The setting aside by resolution of a specified amount of money for a fund with an authorization to make expenditures and incur obligations for specific purposes.

Assessed Valuation (AV)

The taxable value of real and personal property as determined by a tax assessor or government agency as a basis for levying taxes. Assessed valuation does not necessarily correspond to the property's market value.

Assets

Resources owned or held by an entity which have monetary value.

At-Risk

An at-risk student is a student who is at risk of not meeting academic or social expectations or of not graduating from high school.

Benefits

Compensation, in addition to a regular salary, provided to an employee. This may include benefits such as health insurance, life insurance, dental insurance, paid time off, Medicare, and Public Employees Retirement Association (PERA) contributions.

Bonds

Interest bearing certificates of public indebtedness or obligations made by the District which are insured against default by a third party.

Budget

A plan of future events including anticipated revenues and expenditures, along with the financial position at some future point in time.

Build America Bonds (BABS)

Government Bonds created by the American Recovery and Reinvestment Act of 2009 as an alternative way for the federal government to subsidized local and state governmental borrowing by making a direct payment to the bond issuer for 35% of the interest cost.

Cabinet

Senior advisors to the Superintendent of Schools.

Callable Bond

Callable or redeemable bonds are bonds that can be redeemed or paid off by the issuer prior to the bonds' maturity date. When an issuer calls its bonds, it pays investors the call price (usually the face value of the bonds) together with accrued interest to date and, at that point, stops making interest payments.

Capital Asset

Tangible property with an estimated life of more than one year.

Capital Outlay

An expenditure which results in the acquisition of capital assets or additions to capital assets which are presumed to provide a benefit to the District for more than 1 year.

Career Elevation and Technology Center (CETC)

A Career and Technical Education Center, providing high school students from throughout the District with pathways to acquire knowledge and skills linked with specific post-secondary programs leading to a two year or four year degree, and provide students industry certifications giving them a jump start in their careers.

Categorical Programs

Specific programs that are funded separately from a district's Total Program Funding under the School Finance Act. Examples include Special Education (SPED), Gifted and Talented (GT), English Language Proficiency Act (ELPA), Career and Technical Education (CTE), and Pupil Transportation. State funds for categorical programs are generally distributed based on a partial reimbursement of approved expenditures.

Charter School

A public school operated independently of the local school board, often with a curriculum and educational philosophy different from the other schools in the system.

Colorado Department of Education (CDE)

The administrative arm of the Colorado State Board of Education.

Colorado Measures of Academic Success (CMAS)

State's common measurement tool of students' progress at the end of the school year in English Language Arts, math, science, and social studies.

Community Eligibility Provision (CEP)

A National School Lunch Program (NSLP) and School Breakfast Program (SBP) meal service option that allows eligible schools to offer meals at no cost to all enrolled students without collecting household applications.

Colorado Preschool Program (CPP)

Was a state-funded early childhood education program administered by the Colorado Department of Education to fund preschool for students considered to be at risk for later school failure. Program ended in June 2023 with the implementation of Universal Preschool.

Contingency Reserve

Monies budgeted in the General Operating Fund (GOF) for emergencies and other unforeseen events.

Defeasance

A financing tool by which outstanding bonds may be retired without a bond redemption or implementing an open market buy-back. The principal of and interest earned on the securities are sufficient to meet all payments of principal and interest on the outstanding bonds as they become due.

District Factors

In the Public School Finance Act (as amended) district factors adjust the per pupil funding to ensure districts receive adequate resources based on their unique needs. These factors include cost of living, size, and locale.

English Language Learners (ELL)

A student whose primary language is not English and who has been identified through assessments as requiring support to achieve proficiency in English.

English Language Proficiency Act (ELPA)

A state funded program that provides financial and technical assistance to school districts implementing programs to serve the needs of students whose dominant language is not English.

Enterprise Resource Planning System (ERP)

A suite of software applications that connects all business/administrative processes of an organization. The ERP Pro System integrates the District's Human Resources, Payroll, Finance & Accounting, Procurement, and Capital Asset processes.

Equalization, State

General state aid or support provided to the District under the Public School Finance Act (as amended).

Every Student Succeeds Act (ESSA)

Replacing the No Child Left Behind Act, ESSA focuses on ensuring that all children receive a quality education.

Exceptional Children's Education Act (ECEA)

The overarching law for gifted education and special education.

Expenditures

Charges incurred, whether paid or unpaid, which are presumed to benefit the current fiscal year.

Fiscal Year (FY)

The twelve-month period to which the annual budget applies. All Colorado school districts, by law, must observe a fiscal year that is July 1 through June 30.

Foundation Funding

The amount each district in Colorado receives in Total Program funding by multiplying the base per pupil amount by funded pupil count, excluding online and extended high school students.

Free or Reduced Lunch (FRL)

To qualify for free or reduced meals, a household has to fill out an application. Guidelines are set by the Federal Government, comparing the household's size to its income.

Full-Time Equivalency (FTE)

Unit used to measure the hours in an employee's contract based on a 40-hour work week.

Fund

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources. It contains all related assets, liabilities and residual equities or balances, or changes therein. Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions.

Fund Balance

The difference between assets and liabilities reported in a governmental fund.

Funded Pupil Count (FPC)

A district's pupil count, for funding purposes, under the current school finance act, which provides for an October 1st enrollment count within a district's school year. The funded pupil count is expressed in full-time equivalent pupils. The funded pupil count is designed to reflect the amount of time a student spends in an instructional setting.

General Fund (GF)

General Fund is a fund to account for all financial resources, except those required to be accounted for in another fund.

Gifted and Talented (GT)

Program for children between the ages of 5 and 21 whose abilities, talents, and potential for accomplishment are so outstanding that they require special provisions to meet their educational needs.

Grant

A financial award from a federal, state, or local government agency, or any private foundation, corporation, or organization, which is given for specific purposes or to which specific performance requirements exist and is generally solicited through a process of written application.

Healthy School Meals for All (HSMA)

Provides free breakfast and lunch to all students, regardless of their family's income. The program aims to ensure that all children have the nutrition they need to learn and grow, and to address food insecurity

Levy

To impose taxes. The total of taxes imposed by a governmental unit.

Liabilities

Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date.

Long-Term Debt (LTD)

Debt with a maturity of more than one year after the date of issuance.

Mill

Local tax rates against property are always computed in mills. A mill is one one-thousandth of a dollar of taxable value. One mill produces \$1 in tax income for every \$1,000 of property (taxable value).

Mill Levy

The tax rate on real property per thousand dollars of assessed property value. One mill produces \$1 in tax income for every \$1,000 of assessed property value.

Mill Levy Override (MLO)

A ballot measure that asks voters living in a school district boundary to approve the collection of additional "mills" on property taxes, above what is allowed by the State of Colorado.

National School Lunch Program (NSLP)

A federally assisted meal program that reimburses schools to provide nutritionally balanced, low-cost, or free lunches to children each school day.

Object

Describes the service or commodity obtained as the result of a specific expenditure.

October Count

The annual process the District undertakes to provide count and demographic data for pupils in membership within the District. The per-pupil funding that the District receives from the state is based upon this effort.

Pathways in Technology Early College High School (P-TECH)

A program offered in select District high schools that allows students to earn a high school diploma, as well as an Associate degree at no cost to the student. The program includes significant internship and mentorship opportunities alongside industry partners. Students enroll in 9th grade and complete the program in 4-6 years.

Pathways to Teaching (P-TEACH)

A program that introduces St. Vrain high school students to a career as an educator by offering a variety of concurrent enrollment courses through the University of Colorado Denver.

PERA On-Behalf

As a component of Senate Bill 18-200, the state is required to make a direct on-behalf payment of \$225.0 million to Colorado PERA each year. The payment is allocated based on the proportionate amount of annual payroll to the School Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund.

Per Pupil Revenue (PPR)

The equalization funding of a district for any budget year, determined in accordance with the provisions of the Public School Finance Act (as amended), divided by the funded pupil count of the district for said budget year.

Post-Secondary Students

Students enrolled in the District after 12th grade while concurrently in higher education courses.

Property Tax

The general property tax is levied on land and buildings located within the school district. It is essentially a real estate or real property tax. Every owner of private and business property in the district pays this tax, unless exempt (e.g., governmental, charitable, and religious institutions).

Public Employees Retirement Association (PERA)

A retirement association created by C.R.S. 24-51-201. The purpose of PERA is to provide benefits to public employees when they retire or are disabled, or to the family at the employee's death. It serves as a substitute for social security and is funded on an actuarial reserve basis.

Public School Finance Act

The Public School Finance Act (as amended) outlines a Total Program Funding formula that determines how Colorado's 178 school districts are funded. Total Program Funding includes foundation funding, which is the same per pupil amount for all school districts, plus student and district factors. Student factors account for the characteristics of the student population to include at-risk, ELL, and special education. District factors include cost of living, size, and locale of each district.

Purchased Services

Personal services rendered by personnel who are not on the payroll of the District, and other services which may be purchased by the District.

Revenues

Funds received, generally from taxes or from a state or federal funding program, which are not loans, and which do not cause an increase in a liability account.

School Breakfast Program

A federally administered program that provides reimbursement to states to operate nonprofit breakfast programs in schools.

Specific Ownership Tax (SOT)

An annual tax imposed upon each taxable item of certain classified personal property, such as motor vehicles, which tax is computed in accordance with state schedules applicable to each sale of personal property.

St. Vrain Valley Education Association (SVVEA)

A professional and advocacy organization whose mission is to advocate for public educators, support professionalism, and promote public education.

Student Factors

In the Public School Finance Act (as amended) student factors are used to adjust a district's per pupil funding based on the characteristics of the student population to include at-risk, ELL, and special education.

Science, Technology, Engineering, and Math (STEM)

A teaching approach that combines science, technology, engineering, and math.

Supplemental Nutrition Assistance Program (SNAP)

Formerly known as the Food Stamp program, the federal program provides food-purchasing assistance for low-income people to maintain adequate nutrition and health.

TABOR Reserve

A requirement under Article X, Section 20 of the Colorado Constitution that the District establish a reserve of 3 percent of its fiscal year spending, excluding bonded debt services, for emergencies.

Teacher Recruitment Education and Preparation (TREP)

Program that allows qualifying students in a career pathway to concurrently enroll in post-secondary courses and earn college credit at no tuition cost to them or their families, for up to two years after 12th grade.

Temporary Assistance for Needy Families (TANF)

A time-limited program that provides cash assistance to low-income families to cover basic needs like food and clothing, while also providing education and job training to help them become self-sufficient.

Total Program Funding

The financial base of support for public education for school districts as calculated by the Public School Finance Act (as amended). This funding consists of property tax, specified ownership tax and state equalization, the state's portion of funding.

Universal Preschool Program

A State funded program to offer voluntary, high-quality universal preschool to every Colorado child in the year before kindergarten.
